Davis Drug Guide or other drug guide

Nursing 221 (1.0 units)

NURSING SKILLS LABORATORY III

Term Hours: 81 Lec hours

Letter Grade only

Prerequisites: NURS 125, Nursing Process & Application II

NURS 121, Nursing Skills Lab II

NURS 123, Pharmacology II

Corequisites: NURS 224, Psychiatric & Mental Health Nursing

NURS 225 Psychiatric & Mental Health Nursing Application

Tactile skills essential to safe nursing practice will be demonstrated in the nursing skills laboratory. Students will have the opportunity for supervised and individual practice followed by skills check off by an instructor. Master of all previous learned skills will be assessed. Skills theory will be part of the demonstration.

Grading: Grading is accomplished through tests, and clinical simulations. Seventy-five (75) percent of the grades will come from quizzes/tests and twenty (25) percent will come from the final.

THERE WILL BE NO MAKE UPS FOR Tests, Exams, or Quizzes. Student Class presentation, papers or assignment may be assigned as time is permitted in the class.

RN Nursing Grading Scale

A = 92 –100%

B = 83 – 91 %

C = 75 – 82 %

D = 68 – 74 %

F = Below 68%

“Each semester of the nursing program includes at minimum a) theory course work, b) clinical experience course work, and c) nursing skills laboratory work as well as any required co-requisite courses. 1) Each of these areas must be passed with a 75% or better 2) Failure of any one part necessitates re-taking all three; i.e. theory, clinical, and skills to meet the Board of Nursing requirement for concurrent clinical and classroom study.” See RN program Handbook 2009-2010.

Minimum course requirements for progression in the Nursing Program 1) Final Course Grades must be 75% („C“) or better, based on ALL the following: (a) All finals will be passed with a score of 75% or better. See RN program Handbook 2009-2010.

Attendance: Attendance –according to the Imperial Valley College Catalog: Regular attendance in all classes is expected of all students enrolled. Instructors are expected to take a student’s record into account in computing grades. A student may be excluded from further attendance in a class during any semester when absences after close of registration have exceeded the number of class hours which the class meets per week. Students who are late to class three times in any nursing course will be considered absent for one day.

Students may be absent 3 hours over the semester. If absences exceed the 3 hours, the student will be dropped from the class.

Disruptive Behavior: An instructor may drop any student judged to be a disturbing element in the class. Cell phones, pagers and all electronic devices shall be turned off during class. Disruptive behavior during lecture will not be tolerated.

Cheating policy: Students caught cheating or attempting to cheat on exams will be given a zero for that exam. The student may also be referred to the Dean of Instruction for further discipline. Cheating includes, but is not limited to looking at another student’s paper, opening any other computer window outside of test window, minimized cheat sheets, speaking out answers or questions, the use of open box or notes, finger spelling in sign language, notes written on skin, or text messaging or use of high tech gadgets to provide testing material.

Disabilities: Any student with a documented disability who may need educational accommodations should notify the instructor or the dialed student programs and Services (DSP&S) office as soon as possible.

DSP&S Health Science Building, Room 2117 355-6312

Imperial Valley College does not discriminate in the admission nor in the offering of programs and activities because of Race, Color, Religion, Age, Marital Status, National Origin, Gender, Disability or Sexual Orientation

Students failing unit exams are expected to develop remediation plans and meet with the Nursing Learning Center Staff prior to the next exam. Completion of remediation plan should be documented.

Student Learning Outcomes:

1. The student will be able to understand and perform proper nursing assessment, diagnosis and interventions with patients with acute and chronic problems. This will be identified by passing final with 75 percent.
2. The student will be able to perform proper nursing assessment, diagnosis and interventions with the different simulated cases pertaining to acute and chronic problems.
