

Imperial Valley College
Division of Nursing Education and Health Technologies
Nursing Process and Applications IV
Nursing 241 CRN 10743/10744
Class Schedule Fall 2013 (8.5 units)

Time: 1150-1440(M)/1530-1735(T)

Instructors: Rick Fitzsimmons

Day: Monday/Tuesday Classroom: 2150

Diedre Pollock

Deadline to drop WITH "W": November 4, 2013 (12th week)

Instructor: Rick Fitzsimmons

Instructor: Diedre Pollock

Office: 2129

Office: 2128

Phone: 355-6421

Phone: 355-6493

Email: rick.fitzsimmons@imperial.edu

Email: diedre.pollock@imperial.edu

Texts Required:

Smeltzer, Bare, Hinkle & Cheever (2010). Brunner & Suddath's Textbook of Medical-Surgical Nursing (12th Ed). Lippincott Williams & Wilkins ISBN 978-0-7817-8589

Ball, Bindler, & Cowen (2012). Principles of Pediatric Nursing: Caring for Children (5th ED). Pearson ISBN 978-0-13-211175-1

Recommended Text:

Current ATI review books

Davis Drug Guide or other drug guide

Nursing 241 (8.5 units)

NURSING PROCESS AND APPLICATINS IV

Term Hours: 81 Lec, 216 Lab

Letter Grade only

Prerequisites: Nurs 211, NURS 231, NURS 224, NURS 225.

Corequisites: NURS 221, NURS 230.

The course is designed to integrate previous science and nursing course theory into an in-depth study of patients with increasingly complex health problems. Complex, multi system, acute and emergency nursing theory is presented. This course provides theoretical perspective, science-based knowledge and principles needed by students to guide their application of the nursing process and choice of nursing interventions fro individuals. Professional, legal and ethical issues are explored. Through utilization of developmental theories (primarily Erikson) and the Roy Adaptation Model nursing care for individual experiencing adaptation problems across the lifespan in the physiologic mode, psychologic mode and selected adaptation adaptations problems of special senses, complex cardiac, complex respiratory, complex endocrine, complex integumentary, nursing are discussed. The nurse as leader of the nursing team and case management in nursing is explored. This course involves clinical application of both new and previous theoretical concepts and tactile skills taught in nursing Process and application I, II, III, Nursing Skills Laboratory I, II, II, IV, and Psychiatric Nursing and Pharmacology. All aspects of the nursing process will be applied to client situations.

Grading: Grading is accomplished through tests, case studies and clinical performance. Seventy (70) percent of the grades will come from lecture and thirty (30) percent will incorporate clinical performance. The lecture component will be seventy five (75) percent from quizzes and twenty five (25) percent from the final. The clinical component will consist of cases studies and evaluations from clinical agencies. **Both lecture and clinical must be at seventy five (75) percent or higher to pass the course.**

Lecture	70%	Clinical	30%
Quiz	75%	CS/Evaluations	34%
Final	25%	Home health	33%
		Advanced Clinical Practice	33%

Unsatisfactory will be given to students that perform at a satisfactory level during lecture of clinical performance. Each unsatisfactory will be counseled immediately (if possible) and an accumulation of 3 in any semester will produce a failing grade. An unsatisfactory is given by an instructor for clinical performance below the level expected for this semester. Some examples could include:

1. Disruptive behavior that impairs learning.
2. Incomplete or absent charting of narcotics, medications or patient activities.
3. Perform previously learned skill in an ineffective or unsafe manner.
4. Compromising patient confidentiality or safety.
5. Fraudulent documentation of any kind or any communication that is not truthful or is not in the patients' best interest.
6. Poorly performed or absent assignments

The course grade will be computed as follows 75% will come from an average of all assignments prior to the final exam, and 25% of the course grade will come from the final exam. Drug card and assignments will compose 40% and Tests 60% of the 75% of grade.

THERE WILL BE NO MAKE UPS FOR Tests, Exams, or Quizzes. Student Class presentation, papers or assignment may be assigned as time is permitted in the class.

RN Nursing Grading Scale

- A = 92 –100%
- B = 83 – 91 %
- C = 75 – 82 %
- D = 68 – 74 %
- F = Below 68%

“Each semester of the nursing program includes at minimum a) theory course work, b) clinical experience course work, and c) nursing skills laboratory work as well as any required co-requisite courses. 1) Each of these areas must be passed with a 75% or better 2) Failure of any one part necessitates re-taking **all** three; **i.e.** theory, clinical, and skills to meet the Board of Nursing requirement for concurrent clinical and classroom study.” See RN program Handbook.

Minimum course requirements for progression in the Nursing Program 1) **Final Course Grades must be 75% („C“) or better, based on ALL the following: (a) All finals will be passed with a score of 75% or better. See RN program Handbook.**

Attendance: Attendance –according to the Imperial Valley College Catalog: Regular attendance in all classes is expected of all students enrolled. Instructors are expected to take a student’s record into account in computing grades. A student may be excluded from further attendance in a class during any semester when absences after close of registration have exceeded the number of class hours which the class meets per week. Students who are late to class three times in any nursing course will be considered absent for one day.

Students may be absent 19 hours over the semester. If absences exceed the 19 hours, the student will be dropped from the class. **When a student is absent a case study will be due for every 4 hours missed, excused or unexcused. The due dates will determined by the instructor for which the absence occurred. All case studies due for absences will be handed into the instructor for which the absence occurred. Case studies handed in late will receive 5 points off total grade for each day late. If a case study is not received the student will receive an incomplete (“I”) for the semester and if still not completed one week after the end of the school semester the grade will be 0 for the case study.**

Disruptive Behavior: An instructor may drop any student judged to be a disturbing element in the class. Cell phones, pagers and all electronic devices shall be turned off during class. Disruptive behavior during lecture will not be tolerated.

Cheating policy: **Students caught cheating or attempting to cheat on exams will be given a zero for that exam.** The student may also be referred to the Dean of Instruction for further discipline. Cheating includes, but is not limited to looking at another student's paper, opening any non-testing window while testing, minimized cheat sheets, speaking out answers or questions, the use of open box or notes, finger spelling in sign language, notes written on skin, or text messaging or use of high tech gadgets to provide testing material.

Disabilities: Any student with a documented disability who may need educational accommodations should notify the instructor or the dialed student programs and Services (DSP&S) office as soon as possible.
DSP&S Health Science Building, Room 2117 355-6312
Imperial Valley College does not discriminate in the admission nor in the offering of programs and activities because of Race, Color, Religion, Age, Marital Status, National Origin, Gender, Disability or Sexual Orientation

ATI Testing: ATI tests in Medical Surgical, Leadership, Critical Thinking and Comprehensive may be required of RN students during progress thru the nursing program. Please see the Imperial Community College District Division of Nursing and Allied Health Technologies RN Program Handbook School Year: 2011 – 2012.

Students failing unit exams are expected to develop remediation plans and meet with the Nursing Learning Center Staff prior to the next exam. Completion of remediation plan should be documented.

Student Learning Outcomes:

1. Understand nursing theory to plan, implement and evaluate nursing care for adult, geriatric and pediatric patients with acute, complex, or multi-system adaptive disorders of the neurological, cardiac, respiratory, and/or endocrine systems. Demonstrate integration of knowledge in all areas of nursing by passing the ATI Comprehensive/Predictor exam with an individual score of 75% or above (ILO 2,3,5)
2. Understand nursing theory to plan, implement and evaluate nursing care for adult, geriatric and pediatric patient with acute, complex, or multi-system adaptive disorders of the neurological, cardiac, respiratory and or endocrine systems.
 - a. Demonstrate integration of knowledge in all areas of nursing by passing the ATI Med/Surg exam with a level 1 or above. ILO 2,3,5)
3. Apply relevant nursing theory to patient care to individualized patient and families with multiple body systems stressors in the hospital.
 - a. Assessed by clinical evaluation tools. (IOL 2,3,5)
4. Apply relevant nursing theory to patient care to individualized patient and families with multiple body systems stressor in the hospital
 - a. Assessed by clinical case studies. (ILO 2,3,5)
5. Apply relevant nursing theory to patient care to individualized patient and families with multiple body systems stressors in the home and/or outpatient setting.
 - a. Assessed by journals of learning experience in home health and outpatient settings (ILO1,2,5).
6. Apply relevant nursing theory to patient care to individualized patient and families with multiple body systems stressors in the home or/and outpatient setting
 - a. Assess by student and mentor evaluations (ILO1,2,5)
7. Differentiate history and physical data to determine the patient's level of neurological system adaptation and determine appropriate nursing care for actual and potential problem in the adult, geriatric, and pediatric patient's. (ILO 2, 3, 5)
8. Apply the nursing process, ethical and legal principle and knowledge of community resources in the planning, implementation, management, evaluation of care for a variety of patients in community and home health settings (ILO 2,3,5)
