

Basic Course Information

Semester	Spring 2016	Instructor's Name	Caroline Bennett
Course Title & #	Math 61: Basic Mathematics	Instructor's Email	caroline.bennett@imperial.edu
CRN #	20075	Webpage	N/A
Room	Building 2700; Room 2722	Office	Building 2700; Room 2765
Class Dates	2/16/16 – 4/14/16	Office Hours	Mon/Wed 4:00 – 5:00 pm Tues/Thurs 12:00 – 1:00 pm
Class Days	Tuesday / Thursday	Office Phone #	(760) 355 – 6124
Class Times	2:00 – 5:10 pm	Who students should contact if emergency or other absence	(760) 355 – 6155
Units	3.0		(760) 355 – 6201

Course Description

An introduction the concepts needed for further study in Mathematics. Topics covered include operations with whole and rational numbers, decimals, percent, ratios and proportions, and their applications.
(Non-transferable, non-degree applicable)

Student Learning Outcomes

Upon successful completion of this course, a student will:

1. Perform the basic operations with whole and non-signed rational numbers. (ILO2)
2. Perform conversions to and from fractions, decimals, and percentages. (ILO2)
3. Solve application problems involving operations with non-signed rational numbers. (ILO2)

Course Objectives

Upon satisfactory completion of the course, students will be able to:

1. Demonstrate skills working with whole numbers.
2. Demonstrate skills working with fractions.
3. Demonstrate skills working with decimals.
4. Demonstrate skills working with percentages.
5. Solve problems involving sales tax and discounts.

Textbooks & Other Materials

MATHXL ACCESS CODE (REQUIRED): This comes as an insert when you buy a new text. Otherwise, you may purchase an access code online or at the IVC Bookstore. Refer to the MathXL handout that will be provided in class.

TEXT (recommended): Basic College Mathematics, 4th Edition by Martin-Gay ISBN: 978-0321649409
[A customized version of this text for Imperial Valley College is available as well at the campus bookstore]

NOTE: Calculators and cell phones are not permitted on exams.

Course Requirements and Instructional Methods

HOMEWORK is done online through MathXL in this class. The textbook also offers practice problems (many of which I can suggest in class), with answers to the odd exercises provided in the back. Although only the online homework is graded and recorded, the text's problems offer an additional source of practice. If math is a difficult subject for you, then more practice is always better. Practice problems from MathXL are intended to help you understand the material and perform better on tests. If you struggle with the material, here are some further tips:

- 1) Form a study group and work homework problems together with classmates. The Math Lab is a good place to study and work together with classmates.
- 2) If there is a particular homework problem you would really like to see in class, ask me before or at the beginning of class. I will try to accommodate requests if there is time; if there is not sufficient time, then we can arrange to meet after or outside of class for help.
- 3) Take advantage of the free tutoring resources on campus (see last page for details).

Homework should always be taken seriously in a math class. Math is a skill that you can become good at by *practicing it*. Coming to class and taking good notes is important, but doing homework is what deepens your understanding and sharpens your skills. Homework also helps you assess your own problem areas. When you struggle with homework problems, it will help you to ask more informed questions during the following class (instead of just saying "I'm lost" or "I can't do this"), so that I or a tutor can better help you.

NOTE: Although this course includes online homework, it is not an online class. Students who treat this class as an online class (i.e., skipping lectures and showing up only on test days) will find themselves dropped for excessive absence.

EXAMS AND QUIZZES closely reflect the material covered in class and on the homework. A tentative exam schedule is provided in this syllabus; however, exam dates (with the exception of the final exam) may be subject to change, in accordance with the pace of the class. If an exam date is changed, you will be notified sufficiently in advance, both in class and on the Blackboard announcements page. Quiz dates are listed in the calendar as well.

QUIZZES occur during almost every class period in which there is not an exam. This, as well as classwork, is in lieu of attendance. Quizzes come directly from MathXL homework problems. Students may work in groups of up to 4 during quizzes (not for exams). All group members from each group receive the same quiz score. Quizzes always take place during the last part of class, and may not be taken early (don't even ask!). **There are no make-up quizzes. If you are absent or leave class early, then you miss the quiz. Period.**

MAKE-UPS: There are no make-up exams. Do not miss a scheduled exam.

OUT OF CLASS ASSIGNMENTS: The Department of Education policy states that one (1) credit hour is the amount of student work that reasonably approximates not less than one hour of class time and two (2) hours of out-of-class time per week over the span of a semester. The Western Association of Schools and Colleges (WASC) has adopted a similar requirement. **Since this class meets for approximately 6 hours per week, this means that you should expect and plan for a minimum of 12 hours to be spent working on algebra *outside of class* each week. If you cannot commit to that, then this accelerated format is not for you.**

Course Grading Based on Course Objectives

EVALUATION:

In-class activities	70
MathXL homework	200
Quizzes (8 x 10 pts. each)	80
2 exams × 200 points each	400
Final Exam (cumulative)	+ 250
	1000

GRADING SCALE

900 – 1000	A
800 – 899	B
700 – 799	C
600 – 699	D
Below 600	F

The grade that is earned, according to the point scale above, is the grade that will be received. Grades are not subjective. Grades are not negotiable. All students will be treated equally.

NOTE: The final exam in this course is cumulative and mandatory for all students.

NOTE: Math 61 has a “common final”, which means every Math 61 student from every section takes exactly the same final exam, which is written by one or more instructors not currently teaching Math 61 that particular semester. This promotes fairness and consistency across all Math 61 sections.

Attendance

- A student who fails to attend the first meeting of a class or does not complete the first mandatory activity of an online class will be dropped by the instructor as of the first official meeting of that class. Should readmission be desired, the student’s status will be the same as that of any other student who desires to add a class. It is the student’s responsibility to drop or officially withdraw from the class. See General Catalog for details.
- Regular attendance in all classes is expected of all students. A student whose continuous, unexcused absences exceed the number of hours the class is scheduled to meet per week may be dropped. For online courses, students who fail to complete required activities for two consecutive weeks may be considered to have excessive absences and may be dropped.
- Absences attributed to the representation of the college at officially approved events (conferences, contests, and field trips) will be counted as ‘excused’ absences.

Any in-class activities or worksheets that are missed due to an absence CANNOT be made up. Furthermore, on quizzes and exams you are responsible for all material covered in class, regardless of whether or not you were here. Therefore, if you do miss class, you should obtain any missed worksheets or other materials from the instructor, and obtain lecture notes from a classmate.

Attendance is crucial to your success in this course. You are expected to attend every class and **remain during the entire class. Leaving class early without prior consent from the instructor counts as an absence, and** costs points.

Although you may be dropped for excessive absences, you should never *assume* the instructor has dropped you if you simply stop showing up. It is your responsibility to ensure that you have dropped through WebSTAR by the deadline (March 24, 2016) to receive a “W” instead of a failing grade.

PACE: This course will move rapidly. **Because this is an 8-week course, each week will cover the same amount of material that is ordinarily covered in two weeks of the full semester-length course.** It is critical that you stay caught up, avoid missing class, avoid falling behind, stay organized, ask questions, and get additional help whenever necessary.

Classroom Etiquette

School is place to act with respect. Remember that different students have different paces and styles of learning, and that all students have the right to ask questions in class. As a student, you have the right to a safe and comfortable learning environment. You do not have the right to impinge on other students’ learning. Talking or other disruptive classroom behavior WILL affect your grade.

Students who disrupt or interfere with a class may be sent out of the room and required to meet with the Campus Disciplinary Officer before returning to continue with coursework. For further information, refer to the Standards of Student Conduct on pages 41-42 of the 2015-2016 General Catalog.

Class work points:

- You don’t receive points for attending class or lose points for missing class. However, several in-class activities will be worth points which you can only receive if you are in class that day, for a total of 70 possible points (7% of your total grade). Any activities you miss by being absent CANNOT be “made up”.
- Unlike exam points and homework points, **class work points can be both earned and lost.** Points are lost through disrespectful or disruptive behavior such as talking in class, leaving class early, answering cell phones, etc.
- **How to lose points while in class:**
 - **Talking** or being otherwise **disruptive** during class (–5 points)
 - **Leaving class early** (–10 points)
 - **Cell phone** ringing, or leaving class to answer your cell phone, or texting in class... (–5 points)

Cell phones and other electronic devices:

- Turn OFF all cell phones and electronic devices before class, and especially during exams.
- Cell phones that are on “vibrate” mode are STILL DISRUPTIVE.
- Leaving the room to answer cell phones that are in “silent” mode is disruptive and unacceptable. Take care of private calls/texting on your own time.
- Students caught texting during class may be asked to leave class, with an unexcused absence given for that day. Simply put, **if you do not plan to participate and engage in class, then do not bother coming to class.**
- The use of text messaging or other electronic devices for cheating on tests will be treated with the same seriousness as any other form of cheating (see ACADEMIC HONESTY below). Cell phones may not be used as calculators during exams.

Academic Honesty

- Plagiarism is to take and present as one’s own the writings or ideas of others, without citing the source. You should understand the concept of plagiarism and keep it in mind when taking exams and preparing written materials. If you do not understand how to correctly ‘cite a source’, you must ask for help.
- Cheating is defined as fraud, deceit, or dishonesty in an academic assignment or using or attempting to use materials, or assisting others in using materials, or assisting others in using materials, which are prohibited or inappropriate in the context of the academic assignment in question.

Anyone caught cheating or will receive a zero (0) on the exam or assignment, and the instructor may report the incident to the Campus Disciplinary Officer, who may place related documentation in a file. Repeated acts of cheating may result in an F in the course and/or disciplinary action. Please refer to the General School Catalog for more information on academic dishonesty or other misconduct. Acts of cheating include, but are not limited to the following: (a) plagiarism; (b) copying or attempting to copy from others during an examination or on an assignment; (c) communicating test information with another person during an examination; (d) allowing others to do an assignment or portion of an assignment, (e) use of a commercial term paper service

- The consequences of academic dishonesty are severe and may include the possibility of expulsion. For further information, refer to the Standards of Student Conduct on p. 34 and pp. 41-42 of the 2015-2016 General Catalog.
- **Note:** Helping another student cheat (e.g., texting answers to another student during a test, or deliberately allowing another student to copy from your test) is considered equally serious as cheating itself, and will result in exactly the same penalty as cheating.

Additional Help

- Blackboard support center: <http://bbcrm.edusupportcenter.com/ics/support/default.asp?deptID=8543>
- Learning Labs: There are several ‘labs’ on campus to assist you through the use of computers, tutors, or a combination. Please consult your college map for the Math Lab, Reading & Writing Lab, and Learning Services (library). Please speak to the instructor about labs unique to your specific program
- Library Services: There is more to our library than just books. You have access to tutors in the learning center, study rooms for small groups, and online access to a wealth of resources.

Disabled Student Programs and Services (DSPS)

Any student with a documented disability who may need educational accommodations should notify the instructor or the Disabled Student Programs and Services (DSP&S) office as soon as possible. If you feel you need to be evaluated for educational accommodations, the DSP&S office is located in Building 2100, telephone 760-355-6313.

Student Counseling and Health Services

Students have counseling and health services available, provided by the pre-paid Student Health Fee. We now also have a fulltime mental health counselor. For information see <http://www.imperial.edu/students/student-health-center/>. The IVC Student Health Center is located in the Health Science building in Room 2109, telephone 760-355-6310.

Student Rights and Responsibilities

Students have the right to experience a positive learning environment and due process. For further information regarding student rights and responsibilities please refer to the IVC General Catalog available online at http://www.imperial.edu/index.php?option=com_docman&task=doc_download&gid=4516&Itemid=762

Information Literacy

Imperial Valley College is dedicated to help students skillfully discover, evaluate, and use information from all sources. Students can access tutorials at <http://www.imperial.edu/courses-and-programs/divisions/arts-and-letters/library-department/info-lit-tutorials/>

Anticipated Class Schedule / Calendar

(*With the exception of the Final Exam, these dates are tentative and subject to change with advance notice!)

Tuesday		Thursday		Weekly Goals
2/16	First day of class	2/18		Introduction; 1.2 – 1.9
2/23	Homework Quiz 1	2/25	Homework Quiz 2	2.1 – 2.5
3/1	Homework Quiz 3	3/3	Homework Quiz 4	3.1 – 3.5; review (if time)
3/8		3/10	EXAM 1	Exam; 4.1 – 4.3
3/15	Homework Quiz 5	3/17	Homework Quiz 6	4.4 – 4.6; 5.1 – 5.3
3/22	Homework Quiz 7	3/24	Homework Quiz 8	5.3 – 5.4; 6.1 – 6.3
3/29	S P R I N G	3/31	B R E A K	
4/5		4/7	EXAM 2	6.4 – 6.6; review (if time); Exam
4/12		4/14	FINAL EXAM	Catch-up/review; Final Exam

IMPORTANT DATES AND DEADLINES:

- February 18 Last day to withdraw without owing fees and/or be eligible for a refund
 Last day to add a class
- February 23 Last day to withdraw without course appearing on transcripts (without receiving a “W”)
- March 24 Last day to withdraw and receive a “W”
- April 14 Final Exam (comprehensive)

ON-CAMPUS TUTORING RESOURCES:

Math Lab

Building 2500

Mon. – Thurs.: 8 a.m. – 9 p.m.

Friday: 8 a.m. – 5 p.m.

Saturday: 8 a.m. – 1 p.m.

(760) 355 – 6160 (Zhong Hu)

(760) 355 – 6187 (Rosalio Marin)

Study Skills Center

Located in the Library

Mon. – Thurs.: 9 a.m. – 5 p.m.

Friday: 9 a.m. – 3 p.m.

Saturday: Closed

(760) 355 – 6384 (Josue Verduzco)

“Never regard your study as a duty, but as the enviable opportunity to learn to know the liberating influence of beauty in the realm of the spirit for your own personal joy and to the profit of the community to which your later work belongs.” -- Albert Einstein
