Course Requirements and Instructional Methods

Teaching Strategy:

Imperial Valley College Course Syllabus –Fingerspelling and Numbers

The instructor will generally be teaching with a voice off approach. This will increase your receptive comprehension. You will be participating in a variety of class exercises designed to increase both your receptive and expressive skills.

Please arrive to class on time, ready to start signing. We will be introducing new patterns weekly, and then applying it through a variety of exercises. **You MUST practice outside of class.** We will also be learning new grammatical structures weekly as we go through the chapters of the book. You will be asked to prepare some ASL assignments outside of class; you will be given clear instructions to follow to produce successful assignments. You may have to sign individually to your instructor, or in small groups, or in front of the class. We will have signing labs, small group work, and larger group work.

Course Grading Based on Course Objectives

Grading will be based on a standard distribution (i.e., 90-100% = A, 80-89.9% = B). There will be 1,000 points possible during the course. No extra credit will be given.

Participation	300 (includes participation, no voice, following class rules)
Homework	200 (includes written and signed homework)
Exams	200
Quizzes	150
Interactive finals	50 (signing one on one with the instructor)
Improvement	100 (baseline determined at the beginning and end of the course)
TOTAL	1,000
