Course Description

This course is intended to help students with disabilities to understand their computer usage capabilities and to determine, through an instructor evaluation, the appropriate hardware and software. (Non-transferable, non-degree applicable).

Expected learning outcomes

1. Instructor will assist students with identifying their appropriate hardware and software needs.
2. Students will improve on their typing and basic computer skills.
3. Students will be able to complete assignments for other courses and will be able to utilize adaptive software.
4. Students will be responsible for logging into the High Tech Center to record their hours in order to receive credit for course. It is expected that by the end of the semester, 100% of students will be logging into the lab independently.

Course Goals

Students will improve on their basic computer and typing skills. They will learn how to utilize software /hardware that will assist them with their disabilities.

Required Text: None

Course Grading Procedure

Attendance is mandatory. Students must complete 18 hours in order to receive credit. Students need to log-in and log-out on the attendance computer when entering and exiting the lab. Students may be dropped from the course for falling behind on hours without giving prior notification.

Please Note

Students who need special services or arrangements due to their disability need to contact the instructor, counselor or the Mel Wendrick Access Center.

Students are expected to exercise academic honesty and integrity. Violations such as cheating, plagiarism, or viewing inappropriate web sites will result in disciplinary action, which could include a recommendation for dismissal. In addition, students are required to adhere to the Standards of Student Conduct and the college's regulations.
