Course Description

French 100 is a first semester course in a four-course series leading to a major or minor in French. It is designed for students who have no previous experience with French.

Remember that for any work that has been done with translation software or other sources from outside class, grades will be lowered. If you want help with an assignment, you can contact me during my office hours.

Student Learning Outcomes

Students will attain elementary language proficiency. At this language proficiency level, a person can form basic sentences, including asking and answering simple questions. This is essentially the starting point of the language proficiency levels. This level reflects someone who is traveling in a new country. For example, students will be able to use salutations, identify themselves and communicate information related to their immediate surroundings. They will also be able to communicate ideas about simple everyday activities, like school, restaurants and sports., etc.

Course Objectives

To acquire beginning elementary knowledge of French language and the French-speaking world.

Textbooks & Other Resources or Links

You will need a computer or other device with WIFI and integrated or external headphones and video camera.

There is no required textbook.

Recommended: A small paperback French-English bilingual dictionary (new or used) can be purchased at Amazon.com or similar sites. Do not buy a phrase book.

Translation software or other resources from outside the class is not allowed. I will be available during office hours if you need help with an assignment.
