Course Description

An introduction to American Sign Language and fingerspelling. The course will focus on conversational skills, grammar, and vocabulary as it used in Deaf community. Deaf culture will be examined.

Course Prerequisite(s) and/or Corequisite(s)

Recommended preparation: None

Student Learning Outcomes

Upon course completion, the successful student will have acquired new skills, knowledge, and or attitudes as demonstrated by being able to:

- 1) Differentiate between basic similar signs.
- 2) Recognize basic differences between simple ASL and English sentence structures.
- 3) Identify basic differences between Deaf and Hearing cultures.

Course Objectives

Upon satisfactory completion of the course, students will be able to:

1. Demonstrate how to sign numbers zero to one hundred using the cardinal and ordinal numbering systems correctly.
2. Express and receive fingerspelled words at basic skill level.
3. Recall and produce basic sign vocabulary, approximately 25 - 30 signs per week, being able to distinguish between signs that are produced similarly.
4. Recognize and produce specific grammatical structures, including personal and possessive pronouns, directional verbs and noun-verb pairs.
5. Express a basic knowledge of American Sign Language syntax.
6. Sign presentations, following the criteria and topics indicated by the instructor.
7. Participate in in class signing activities - including physical and emotional descriptions, discussing daily routines, and requesting in ASL.
8. Demonstrate a basic use of simple classifiers.
9. Sign using the correct facial grammar and syntax for forming questions in ASL.
10. Discuss basic Deaf culture issues including: differences between Deaf and Hearing cultures; how to navigate a signing environment; appropriate greetings and attention getting behaviors.

Course Requirements and Instructional Methods

Teaching Strategy:

The instructor will be teaching synchronously via Zoom. This class was listed in the catalog as real time, with time blocks given. **There are many advantages to attending the live class. It is the easiest way to earn lab points, you will have access to the embedded tutor during that time, and some exercises you CANNOT do individually.** Language is about communication and interaction, and you cannot do that signing to yourself into a camera.

The instructor will generally be teaching with a voice off approach, after the first few weeks. This will increase your receptive and expressive comprehension, as you will be asked to respond in ASL. You will be participating in a variety of class exercises designed to increase both your receptive and expressive skills. Please arrive to class on time, ready to start signing.

The instructor knows that you will not understand 100% of her signing. The necessary information is delivered to you via in class notes accompanying the lecture and information loaded onto Canvas.

We will be introducing new vocabulary weekly, and then applying it through a variety of exercises. **You MUST practice outside of class.** We will also be learning new grammatical structures weekly as we go through the chapters of the book. You will be asked to prepare some ASL assignments outside of class; you will be given clear instructions to follow to produce successful assignments.

You may have to sign individually to your instructor, or in small groups, or in front of the class. We will have presentations this semester, as well as signing labs, small group work, and larger group work. You will not This will require a time commitment, so please read the statement below from the Department of Education.

You will quiz weekly in this class, and will take 3 exams over the course of the semester. A few quizzes will be given in the Zoom classroom. Most quizzes will be given through the Canvas system, but not using the Canvas quiz feature. You will be given the question file and a link to a recording. You will then click on the recording and start the quiz. The exams will be administered the same way. **There are no time limits on exams or quizzes**, as you may need to watch the recordings a few times if your wifi glitches or goes down.

Out of Class Assignments: The Department of Education policy states that one (1) credit hour is the amount of student work that reasonably approximates not less than one hour of class time and two (2) hours of out-of-class time per week over the span of a semester. WASC has adopted a similar requirement.

Course Grading Based on Course Objectives

Grading will be based on a standard distribution (see below). **You are allowed to submit one late homework for full credit.** If you are ill, you will make up any in class presentations the day you return to class. If written homework is due the day you are absent, you can submit it via Canvas to the instructor. No other late homework will be accepted.

Grading will be based on a standard distribution (i.e., 90-100% = A, 80-89.9% = B). There will be 1,000 points possible during the course.

Participation	150 (includes Zoom class labs, no voice, following class rules)
Homework	180 (includes written and signed homework)
Exams	300
Quizzes	150
Paper	50
Presentations	50 (2 @ 25 points each)
Section finals	70 (2 @ 35 points each)
Interactive final	50 (signing one on one with the instructor)

TOTAL 1,000

Course Policies

My classroom rules remain the same, regardless of online or on ground:

1 – **Pay attention to the best of your ability** – Turn on your cameras when in the Zoom room. I need to see you to know if you are even there. If you are having camera tech difficulties, let me know via the Chat or email. If you have to turn off your camera, let me know why. No cell phones, unless I say to use them or you are using them to screen shot the notes. (And then you still need to write the notes down, or you'll never remember the info.)

2 – **If you have a question, ask the instructor**, not your classmates. Of course you will have an opportunity to discuss things with your classmates in the Zoom classroom, and you may clarify things with each other. But if you have a significant question, you should probably ask the person who is going to give you the grade, not your classmate. The only stupid question is the one you don't ask – and it will probably show up on the test!

3 – **NO CHEATING!!!!!!!!!! There is not a strong enough English word to tell you how I feel about cheating.** It is far better to leave an answer blank or to tell me a joke or draw me a picture when you don't know the answer. This is even more important during this time of online learning. I do not want to have to have you record yourself taking exams, or to administer them live to monitor all of you. Please do not make me. Your honor is something that no one can take from you. Don't give it away.

Your instructor's perspective on attending class via Zoom:

Learning via Zoom can be challenging. Many of you will be attending from your home or your workplace. That means there may be many different, important things competing for your attention. I personally don't care if you bring your dog, cat, or baby/younger sibling into the Zoom room. They are a part of your life too.

I don't care if you're in your jammies in the Zoom room – as long as you don't sleep nude! I don't care if you have your makeup on or not. I don't care if you have your hair done or the worst bad hair day ever. I DO care that you make it in to class. (In clothes. Please wear clothes. Something that covers all of you, even if we don't see it!)

Students will be expected to follow IVC's online netiquette policy:

- What is netiquette? Netiquette is internet manners, online etiquette, and digital etiquette all rolled into one word. Basically, netiquette is a set of rules for behaving properly online.
- Students are to comply with the following rules of netiquette: (1) identify yourself, (2) include a subject line, (3) avoid sarcasm, (4) respect others' opinions and privacy, (5) acknowledge and return messages promptly, (6) copy with caution, (7) do not spam or junk mail, (8) be concise, (9) use appropriate language, (10) use appropriate emoticons (emotional icons) to help convey meaning, and (11) use appropriate intensifiers to help convey meaning [do not use ALL CAPS or multiple exclamation marks (!!!!)].

Other Course Information

Your instructor believes that we can still create a learning community – and a signing community - on Zoom. We will be interacting, and you will get to know your classmates and possibly make some new friends. ASL belongs to the Deaf community, and the Deaf community is a friendly group of people, who enjoy interacting.

You don't have to be a "people person" to take ASL. You do have to be willing to communicate with your classmates. There will be times that your grade will depend on your classmates and your interaction with them. Make sure that you are polite and supportive: EVERYONE is learning, and ANYONE can be having a bad day, and may not be signing as well as they can.

*****Subject to change without prior notice*****

Very little extra credit will be given in class during the semester. Extra credit opportunities will consist of either attending an event where you use your ASL, or you observe upper level signers using their ASL. These are called Deaf events, as there are usually Deaf people attending. There will be at least 9 Deaf events during this semester, and at least 4 of them will be offered on campus.
