

Chemistry 200 (General Inorganic Chemistry I) Syllabus and Schedule

Basic Course Information

Semester:	Winter 2022	Instructor Name:	Dr. Alto Benedicto
Course Title & #:	Chemistry 200	Email:	alto.benedicto@imperial.edu
CRN #:	15020	Units:	5
Classroom:	Zoom online	Office #:	2779 online
Class Dates:	Jan 3 to Feb 3, 2023	Office Hours:	MTWThF 6:30 am – 7 am (Zoom)
Class Days:	Tutoring available MTWTh (see page 5)	Office Phone #:	(760) 355-5751
Class Times:	online	Emergency Contact:	Dept. Secretary (760) 355-6155

Course Description

Basic principles and calculations of chemistry with emphasis on stoichiometry and dimension analysis applied to various problem types. Fundamental principles and theory of atomic and molecular structure as related to bonding and molecular geometry. Study of kinetic molecular theory, the first law of thermodynamics, periodic relationships of the elements, physical states of matter, solution chemistry, and oxidation-reduction. The laboratory is closely related to lecture topics and includes methods of classical experimentation as well as certain instrumental analysis. (C-ID CHEM 110) (CSU, UC) Prerequisite: Chem 100.

Student Learning Outcomes

Upon course completion, the successful student will have acquired new skills, knowledge, and or attitudes as demonstrated by being able to:

1. Solve chemical problems using modern atomic theory (ISLO 2, ISLO 4)
2. Perform chemical experiments in a scientific manner, using proper techniques, analysis, and safety equipment. (ISLO 2, ISLO3, ISLO4)

Course Objectives

Upon satisfactory completion of the course, students will be able to:

1. Student will demonstrate ability to perform dimensional analysis calculations as they relate to problems involving percent composition and density.
2. Student will write chemical formulas, name inorganic compounds, and demonstrate a knowledge of basic atomic theory
3. Student will relate chemical equations and stoichiometry as they apply to the mole concept, molarity, and acid-base titrations. Student will derive formulas from percent composition.
4. Student will identify the basic types of chemical reactions including precipitation, neutralization, and oxidation-reduction.
5. Student will demonstrate knowledge of atomic structure and quantum mechanics and apply these concepts to the study of periodic properties of the elements.

6. Student will relate the general concepts of atomic structure to a study of ionic bonding.
7. Student will relate the general concepts of covalent bonding and molecular structure.
8. Student will demonstrate the first law of thermodynamics both in theoretical and practical contexts and apply the theory to the solution of Hess' Law.
9. Student will manipulate the various gas laws in both theory and practice to solve mathematical problems relating to the behavior of both ideal and non-ideal gases.
10. Student will describe the general properties of liquids and solids including intermolecular attractions and phase changes.
11. Student will relate the general properties of solutions and employ knowledge of concentration to explain colligative properties. Student will investigate the phenomenon of vapor pressure.
12. Student will demonstrate knowledge of computer-assisted methods of data acquisition, analysis and presentation.

Textbooks & Other Resources or Links

1. **Two sites used by IVC for our textbooks:**

- a. <https://chem.libretexts.org>
 - i. For the textbook: click [https://chem.libretexts.org/Bookshelves/General_Chemistry/Chemistry_\(OpenSTAX\)](https://chem.libretexts.org/Bookshelves/General_Chemistry/Chemistry_(OpenSTAX))
 - ii. For exercises: click https://chem.libretexts.org/Bookshelves/General_Chemistry/Exercises%3A_General_Chemistry/Exercises%3A_OpenStax
- b. Chemistry, by Paul Flowers, Klaus Theopold, Richard Langley, Stephen F. Austin, and William R. Robinson (OpenStax, 2015, ISBN: 1-938168-39-9)
 - i. For this textbook: click <https://openstax.org/details/books/chemistry>

- ~~2. *Chemistry in the Laboratory*, by James M. Postma, Julian Roberts, and J. Leland Hollenberg (W.H. Freeman and Company, 7th Ed, ISBN: 1-4292-1954-8)~~
- ~~3. Chemistry 200 Supplementary Laboratory Manual available at **IVC Chemistry/STEM Club** (\$15)~~
- ~~4. Eight (8) Scantron Sheets Form No. 889-E (submitted on the second day of class) and pencil~~
5. safety goggles (\$5 – \$10; needed on second class day), **non-programmable scientific calculator** (\$15 - \$25), close-toed shoes
6. registration with Macmillan Learning Achieve for online HW (\$45) – requires credit card.
You can register by going to our course in Canvas, and then clicking Macmillan Learning (located on left margin) while INSIDE our Canvas course, and follow instructions.

Course Requirements and Instructional Methods

1. Attendance and remaining during the entire class period is mandatory for Chem 200 Lab Classes. A Lab roll call will be initiated by the instructor within the first 5 minutes of Lab class. If you are sent out during class (e.g., failure to obey safety rules such as wearing Safety Goggles, etc.), you will be marked absent for that Lab, and will garner zero points for the experiment.
2. There are **no make-up Exams or Lab Classes**. A score of **zero (0)** will be recorded unless the absence is attributed to representation of official college functions. It is the student's responsibility to show proof of such function **prior** to the date of the absence.

- During Exam, the only things allowed are: **pencil, nonprogrammable calculator, and I.D.** You will be supplied with a Periodic Table and a Scantron. You may use the Exam Questionnaire as scratch paper. The Exam Questionnaire, Periodic Table, and Scantron are to be submitted at the end of the Exam. **Possession of electronic devices (phones, ipod, programmable calculator, etc.) during Exam is considered cheating** and will be dealt with according to IVC policy.
- Each student is REQUIRED to ~~buy the Chem 200 Supplement Lab Manual~~ and to **sign up for online HW no later than the second day of class.** Personal laptop is highly encouraged for online HW during Lab Class.
- Due dates for Online HWs are found in the Class Schedule of Topics (see last page).** For technical assistance beyond the instructor, call Macmillan Technical Support at 1-800-936-6899. Also, there's online tutoring with a live person in **Online Tutoring** (embedded inside Canvas).
- ~~Prior to start of Lab Class, read the relevant experiment and answer any Pre-Lab Questions. **Pre-Lab Questions sheet should be torn from the Lab Manual and submitted to the instructor within two (2) minutes from start of Lab Class to gain full points.**~~ So tear out the relevant Pre-Lab sheets before coming to class, and don't be late!!!
- ~~Before leaving the Lab Class, make sure the **instructor has signed** your Lab Data Sheet. Data should be recorded in **ink**. Cross out mistakes with a single strike through line. **Data Sheets and Post-Lab Questions are to be submitted within the first two minutes of the next time Lab meeting.**~~
- Lab clean-ups are done 15 minutes before the end of lab. A ~~wet towel~~ should be used to wipe the lab bench in order to gain full points. Make sure sink and work area is clean. Points will be deducted to the entire class if the common work areas (fume hood, analytical balances) are dirty.
- There are no bonus work available. Kindly seek assistance immediately to clarify any questions.
- If this is an Hybrid section, with the lecture discussion being done online, you must have access to a computer and an Internet connection. No other special technical skills are needed other than knowledge on how to use Canvas.

Out of Class Assignments: The Department of Education policy states that one (1) credit hour is the amount of student work that reasonably approximates not less than one hour of class time and two (2) hours of out-of-class time per week over the span of a semester. WASC has adopted a similar requirement.

Course Grading Based on Course Objectives

Assessment Type	How many	Total Points
Lecture Exams	5 @ 60	300 pts
Lecture Final Exam	1 @ 200	200 pts
Online Homework (in Achieve)	11 @ 15 3 @ 20; 1 @ 30	255 pts
Labster Simulations and PhET Simulations	12 @ 12 1 @ 6, 1 @ 20	170 pts
Lab Exam and Discussion	1 @ 50+25	75 pts

OVERALL POINTS = 1,000 pts

Grading Scale Percentage	Letter Grade
85.00% to 100 %	A
75.00% to 84.99%	B
60.00% to 74.99%	C
50.00% to 59.99%	D

Attendance

- A student who fails to attend the first meeting of a class or does not complete the first mandatory activity of an online class will be dropped by the instructor as of the first official meeting of that class. Should readmission be desired, the student's status will be the same as that of any other student who desires to add a class. It is the student's responsibility to drop or officially withdraw from the class. See General Catalog for details.
- Regular attendance in all classes is expected of all students. **A student whose continuous, unexcused absences exceed the number of hours the class is scheduled to meet per week may be dropped.** For online courses, students who fail to complete required activities for two consecutive weeks may be considered to have excessive absences and may be dropped.
- Absences attributed to the representation of the college at officially approved events (conferences, contests, and field trips) will be counted as 'excused' absences.
- **Absences during Lab Classes, or leaving during Lab Classes** automatically result in a **grade of zero (0) for the Lab Experiment.**

Classroom Etiquette

- Electronic Devices: Cell phones and electronic devices must be turned off and put away during class, unless otherwise directed by the instructor.
- Food and Drink are prohibited in all classrooms. Water bottles with lids/caps are the only exception. Additional restrictions will apply in labs. Please comply as directed by the instructor.
- Disruptive Students: Students who disrupt or interfere with a class may be sent out of the room and told to meet with the Campus Disciplinary Officer before returning to continue with coursework. Disciplinary procedures will be followed as outlined in the [General Catalog](#).
- Children in the classroom: Due to college rules and state laws, no one who is not enrolled in the class may attend, including children.

Online Netiquette

- What is netiquette? Netiquette is internet manners, online etiquette, and digital etiquette all rolled into one word. Basically, netiquette is a set of rules for behaving properly online.
- Students are to comply with the following rules of netiquette: (1) identify yourself, (2) include a subject line, (3) avoid sarcasm, (4) respect others' opinions and privacy, (5) acknowledge and return messages promptly, (6) copy with caution, (7) do not spam or junk mail, (8) be concise, (9) use appropriate language, (10) use appropriate emoticons (emotional icons) to help convey meaning, and (11) use appropriate intensifiers to help convey meaning [do not use ALL CAPS or multiple exclamation marks (!!!!)].

Academic Honesty

Academic honesty in the advancement of knowledge requires that all students and instructors respect the integrity of one another's work and recognize the important of acknowledging and safeguarding intellectual property.

There are many different forms of academic dishonesty. The following kinds of honesty violations and their definitions are not meant to be exhaustive. Rather, they are intended to serve as examples of unacceptable academic conduct.

- **Plagiarism** is taking and presenting as one's own the writings or ideas of others, without citing the source. You should understand the concept of plagiarism and keep it in mind when taking exams and preparing written materials. If you do not understand how to "cite a source" correctly, you must ask for help.
- **Cheating** is defined as fraud, deceit, or dishonesty in an academic assignment, or using or attempting to use materials, or assisting others in using materials that are prohibited or inappropriate in the context of the academic assignment in question.

Anyone caught cheating or plagiarizing will receive a zero (0) on the exam or assignment, and the instructor may report the incident to the Campus Disciplinary Officer, who may place related documentation in a file. Repeated acts of cheating may result in an F in the course and/or disciplinary action. Please refer to the [General Catalog](#) for more information on academic dishonesty or other misconduct. Acts of cheating include, but are not limited to, the following: (a) plagiarism; (b) copying or attempting to copy from others during an examination or on an assignment; (c) communicating test information with another person during an examination; (d) allowing others to do an assignment or portion of an assignment; (e) using a commercial term paper service.

Additional Student Services

Imperial Valley College offers various services in support of student success. The following are some of the services available for students. Please speak to your instructor about additional services which may be available.

- **Learning Services.** There are several learning labs on campus to assist students through the use of computers and tutors. Please consult your [Campus Map](#) for the [Math Lab](#); [Reading, Writing & Language Labs](#); and the [Study Skills Center](#).
- **Library Services.** There is more to our library than just books. You have access to tutors in the [Study Skills Center](#), study rooms for small groups, and online access to a wealth of resources.

Disabled Student Programs and Services (DSPS)

Any student with a documented disability who may need educational accommodations should notify the instructor or the [Disabled Student Programs and Services](#) (DSP&S) office as soon as possible. The DSP&S office is located in Building 2100, telephone 760-355-6313. Please contact them if you feel you need to be evaluated for educational accommodations.

Student Counseling and Health Services

Students have counseling and health services available, provided by the pre-paid StudentHealth Fee.

- **Student Health Center.** A Student Health Nurse is available on campus. In addition, Pioneers Memorial Healthcare District provide basic health services for students, such as first aid and care for minor illnesses. Contact the IVC [Student Health Center](#) at 760-355-6128 in Room 1536 for more information.
- **Mental Health Counseling Services.** Short-term individual, couples, family, and group therapy are provided to currently enrolled students. Contact the IVC [Mental Health Counseling Services](#) at 760-355-6196 in Room 2109 for more information.

Student Rights and Responsibilities

Students have the right to experience a positive learning environment and to due process of law. For more information regarding student rights and responsibilities, please refer to the IVC [General Catalog](#).

Information Literacy

Imperial Valley College is dedicated to helping students skillfully discover, evaluate, and use information from all sources. The IVC [Library Department](#) provides numerous [Information Literacy Tutorials](#) to assist students in this endeavor.

TUTORING RESOURCES:

- 1) Our Class Tutor _____ hours are (MWF: _____)(TThS: _____) (Zoom ID 930 5535 9930—ask for _____)
- 2) My Tutoring/Office Hours: MTWTh 6:30 am – 7:00 am. (Zoom link in Canvas Announcement)
- 3) **Online Tutoring** in left margin of Canvas seven days a week allows you to access live tutoring from State of California

Anticipated Class Schedule/Calendar

Day	DATE	CHAPTER READINGS	Laboratory LABSTER (all due Feb 2); Macmillan Achieve HW due at 11:55 pm
1	Jan 3 (T)	Orientation 6:30 am WED Jan 4 (Zoom Meet ID will be emailed to Registered & WaitListed on Jan 3) Chap 1: The Chemical World (Classification of Matter/Changes; Measurement—Sig Figs, Dimensional Analysis, Accuracy)	Labster 1: Lab Safety 'due' (in Canvas) <i>Canvas Discussion 1 due</i> HW 1 due next day
2	Jan 4 (W)	Chap 2: Atoms, Molecules, Ions (Atomic Theory; Atomic Number, Mass Number, Isotopes; Nomenclature of Hydrates)	Labster 2: Matter and its Phase Changes (in Canvas) HW 2 due next day PhET Sim: Build An Atom due Thurs Jan 5 (in Canvas)
3	Jan 5 (Th)	Chap 3: Composition of Substances and Solutions (Moles, Molar Mass, % Composition, Empirical & Molec Formula, Molarity)	Labster 3: Periodic Table of Elements HW 3 due next day
4	Jan 6 (F)	Chap 4: Stoichiometry (Balanced Eqn, Classifying Rxns, Yields)	Labster 4: Atomic Structure HW 4 due next day
5	Jan 9 (M)	Lecture Exam 1 (Chap 1,2,3,4) 6 pm - 7:40 pm	<i>Canvas Discussion 2 due</i>
6	Jan 10 (T)	Chap 6: Electronic Structure and Periodic Properties (Bohr Model, QM model, Quantum Numbers, Electron Configurations, Orbital Diagrams, Periodic Trends)	Labster 5: Stoichiometric Calculations HW 6 due next day
7	Jan 11 (W)	Chap 7: Chemical Bonding I (exceptions to Lewis structure, Ionic/Covalent/Metallic Bonding, Formal Charges, Resonance, Molecular Geometry, Polarity)	Labster 6: Bohr and Quantum Model HW 7 due next day
8	Jan 12 (Th)	Chap 8: Chemical Bonding II: (Valence Bond vs Molecular Orbital Theory)	Labster 7: Ionic and Covalent Bonds HW 8 due next day
9	Jan 13 (F)	Lecture Exam 2 (Chap 6,7,8) 6 pm - 7:40 pm Chap 9: Gases (Ideal Gas Law, Real Gases, Effusion vs Diffusion, Stoichiometry)	HW 9 due next day
10	Jan 17 (T)	Chap 10: Liquids and Solids (Intermolecular Forces, Phases Diagrams, Lattice Structures, Calorimetry)	Labster 8: Ideal Gas Law HW 10 due next day

Day	DATE	CHAPTER READINGS	Laboratory LABSTER (all due Feb 2); Macmillan Achieve HW due at 11:55 pm
11	Jan 18 (W)	Chap 11: Solutions and Colloids: (Solubility; Colligative Properties; Colloids, molality)	Labster 9: Solution Preparation HW 11 due next day
12	Jan 19 (Th)	Lecture Exam 3 (Chap 9,10,11, stoichiometry) 6 pm - 7:40 pm	<i>Canvas Discussion 3 due</i>
13	Jan 20 (F)	Chap 13: Chemical Equilibrium (Equilibrium Constant, Le Chatelier's Principle, ICE box)	Labster 12: Equilibrium HW 13 due next day
14	Jan 23 (M)	Chap 14: Acid-Base Equilibria (definitions, pH, weak acids, pKa, polyprotic acid, buffers)	Labster 10: Acids and Bases
15	Jan 24 (T)	Con't of Chap 14: (Titration; hydrolysis of salt solutions)	Labster 11: Titration HW 14a due next day
16	Jan 25 (W)	Lecture Exam 4 (Chap 13,14) 6 pm - 7:40 pm	<i>Canvas Discussion 4 due</i>
17	Jan 26 (Th)	Chap 15: Solubility Equilibria (Ksp, complex ion formation, common ion effect)	Labster 13: Advanced Acid and Base HW 15 due next day
18	Jan 27 (F)	Chap 5: Thermochemistry (Calorimetry, Hess Law, Std Enthalpy of Formation)	HW 5 due next day
19	Jan 30 (M)	Ch 16: Thermodynamics 1 st Law (Bond Dissociation Energy, Born-Haber cycle) NOTE: Omit Second and Third Law for next course	HW (5 and 16) due next day
20	Jan 31 (T)	Lecture Exam 5 (Chap 15,5,16) 6 pm - 7:40 pm	<i>Canvas Discussion 5 due</i>
21	Feb 1 (W)	Lecture on Lab Techniques	HW 14b due next day
22	Feb 2 (Th)	Review for Finals	Lab Exam (Lab Techniques) 6 pm - 7 pm (1 hour)
23	Feb 3 (F)	(Finals is in Macmillan Achieve)	LEC FINAL EXAM (6 pm - 8:10 pm) (2 hr 10 min)

*****Tentative, subject to change without prior notice*****
