Course Description

The course is designed to provide supervised directed practice in an ambulatory administrative practice. The student will gain hands-on experience performing administrative medical assistant duties and skills essential for entry-level employment. The student must demonstrate mastery of MAERB psychomotor and effective competencies as defined relating to administrative medical assisting practices. Enrollment in the course requires that the student have Basic Cardiac Life Support Certificate (BLS) and proof of Medical Liability Insurance. Student must be available during regular operating hours of ambulatory care setting. (Nontransferable, AA/AS degree only)

Course Prerequisite(s) and/or Corequisite(s)

MA 075 with grade of "C" or better, or concurrent enrollment in MA 075.

Student Learning Outcomes

Upon course completion, the successful student will have acquired new skills, knowledge, and or attitudes as demonstrated by being able to:

Demonstrate ability to successfully- complete front office skills such as check in patients, place outgoing calls, answer incoming calls and observe process for scheduling appointments.

Course Objectives

Upon satisfactory completion of the course, students will be able to:

1. Students must demonstrate satisfactory competencies as defined by MAERB Core Curriculum.
2. Understand the components of the medical profession, the ethical and legal considerations, and professional attitudes.
3. Demonstrate the role of medical assistant in a team atmosphere and behavior consistent with the California Medical Practice Act.
4. Demonstrate proper communication both through phone, verbal and non-verbal modalities with patients, coworkers, and physicians.

5. Understand the importance of medical appointment scheduling and the various techniques for maintaining a scheduling system.
6. Demonstrate how to schedule appointments using principles that will maximize productivity.
7. Understand the components of medical record: prepare and process the patient medical record; understand the principles of filling and assemble supplies and equipment to set up a filling system.
8. Demonstrate the principles of third party billing and fee collection with patients.
9. Understand how collection agencies work with selected settings.
10. Understand various medical insurance care plans and prepare accurate information and documentation.
11. Demonstrate principles of common systems of bookkeeping and accounting in the medical office including maintaining and reconciliation of a checking account.
12. Understand various office emergency procedures and their application. The student will recognize emergencies and discuss proper emergency procedures.
13. List the components of seeking employment.
