

Basic Course Information

| | | | |
|-------------------|---|---------------------|---|
| Semester: | Spring 2023 | Instructor Name: | Julio Hernandez |
| Course Title & #: | AU T 210 Automotive Air Conditioning | Email: | julio.hernandez@imperial.edu |
| CRN #: | 20913 | Webpage (optional): | N/A |
| Classroom: | 1100 Bldg. 1101 | Office #: | 1100 Bldg. |
| Class Dates: | February 13, 2023 - June 09, 2023 | Office Hours: | TBD |
| Class Days: | Tuesday & Thursday | Office Phone #: | N/A |
| Class Times: | 6:00 pm – 8:40 pm | Emergency Contact: | Campus Nurse: (760)355-6128 Campus Safety: (760)483-7411 |
| Units: | 3.00 | Class Format: | In person (Face to Face) |

Course Description

This course is designed to impart knowledge and information needed by the student to enter and make progress in employment service industry. The use of charging station and systems will part of A/C course. Up on completion of this course the student will be prepared to take the Automotive Service Excellence (ASE) examination for air conditioning. On productive basis in the automotive air conditioning.

Course Prerequisite(s) and/or Corequisite(s)

None

Student Learning Outcomes

1. Identify and interpret heating and air conditioning concern; determined necessary action.
2. Perform A/C system test; identify A/C system malfunctions.
3. Diagnose A/C system conditions that cause the protection devices to interrupt system operation.

Course Objectives

1. Demonstrate knowledge of personal safety and workshop regulations
2. Demonstrate knowledge of the trade
3. Demonstrate knowledge of basic refrigeration
4. Demonstrate knowledge of temperature control device
5. Demonstrate knowledge of testing and diagnosing equipment.

6. Demonstrate knowledge of component rebuilding
7. Demonstrate knowledge of efficiency testing procedures
8. Analyze problems and practice on various live manufacturers products
9. Demonstrate knowledge of proper recovery and handling of R-12 & R134 with the use of recovery station.
10. Demonstrate knowledge of retrofitting system from R-12-R134
11. Be familiar with ASE examination requirements, and prepare to successful pass the exam.

Textbooks & Other Resources or Links

Equipment and Supplies:

1. Textbook: Modern Automotive Technology ISBN: 978-1-63563-424-2 and/or Canvas Common Cartridge Access Key Code

- Additional Reference Textbook: Auto Heating and Air Conditioning 5th edition by Chris Johansson, G-W publisher, ISBN 978-1-64564-174-2

2. Personal Protective Equipment:

- Safety glasses, facemask.
- Work footwear.
- Proper shirt and pants.

Course Requirements and Instructional Methods

Methods of instructions may include, but are not limited to, the following: lectures, textbook worksheets, hands-on worksheets, internet readings, large and small group discussions, audiovisual aids, and demonstrations.

Out-of-class:

Obtain a junked automotive air conditioning compressor and disassemble it. Identify the type of compressor and the basic parts; then, reassemble the components.

Reading and Writing:

Visit the library and do research to find out why R-12 and other CFC refrigerants are dangerous to the environment. Write a report on the problem and what is being done to solve it.

Course Grading Based on Course Objectives

Grading Criteria:

1. Grading system:

- A=90%-100% of points= Excellent
- B=80%-89% of points= Good
- C*=70%-79% of points= Satisfactory
- D= 60%-69% of points= Pass, less than satisfactory
- F= Less than 60% of points= Failing

2. Very important:

- Mid-Term (60 points) will be given on October 13. It will be a multiple choice test. Bring your Scantron, and pencil.

- Final-Exam (60 points) will be given on December 8. It will be a multiple choice test. Bring your Scantron and pencil.
- There are no make-up exams unless you have a very good reason and make arrangements with the instructor before the exam.
- Final grades can be raised or lowered based on your preparation and participation in class. It benefits you to be engaged and participative.

Grades:

| | Points |
|------------------------------------|--------|
| Book worksheets, quizzes. | 140 |
| Lab activity, hands-on worksheets. | 240 |
| Mid-term | 60 |
| Final-exam | 60 |
| Total points | 500 |

Course Grade:

The course grade is based on total points accumulated during the semester. There is a total of 500 points available. Grades are determined by dividing the total points you earn by the total points available to get your percentage. (Total points may vary if I change the assignments in a particular week).

Grading of Hands-on Assignments:

The most common problem students experience is not being detailed enough in their answers and not spending the right amount of time in the repair procedures. Always be as specific as you can and use examples from your readings. Make sure to answer all parts of the questions. Points will be deducted for inadequate responses. Feedback will be given after each assignment and, hopefully, you will improve as you proceed with the course. The following grading rubric is used when grading assignments.

| | Grading Rubric for Hands-on Assignment | Points |
|---|--|--------|
| A | Focused and clearly organized. Contains critical thinking and content analysis. Convincing evidence is provided to support conclusions. Ideas are clearly communicated. Clearly meets or exceeds assignments requirements. | 18-20 |
| B | Generally focused and contain some development of ideas, may be simplistic or repetitive. Evidence is provided which supports conclusions. Meet assignments requirements. | 16-17 |
| C | May be somewhat unfocused, underdeveloped, or rumbling. But does have some coherence. Some evidence is provided which support conclusions. Meets minimum assignment requirements. | 14-15 |

| | | |
|---|---|-------|
| D | Unfocused, underdeveloped. Minimal evidence is used to support conclusion. Does not respond appropriately to the assignment. | 12-13 |
| F | Minimal effort by the student. Unfocused, underdeveloped. Evidence is not used to support conclusion. Block overall understanding. Does not meet assignment requirements. | 0-11 |

Course Policies

- A student who fails to attend the first meeting of a class or does not complete the first mandatory activity of an online class will be dropped by the instructor as of the first official meeting of that class. Should readmission be desired, the student's status will be the same as that of any other student who desires to add a class. It is the student's responsibility to drop or officially withdraw from the class. See [General Catalog](#) for details.
- Regular attendance in all classes is expected of all students. A student whose continuous, unexcused absences exceed the number of hours the class is scheduled to meet per week may be dropped. For online courses, students who fail to complete required activities for two consecutive weeks may be considered to have excessive absences and may be dropped.
- Absences attributed to the representation of the college at officially approved events (conferences, contests, and field trips) will be counted as 'excused' absences.

Academic honesty in the advancement of knowledge requires that all students and instructors respect the integrity of one another's work and recognize the important of acknowledging and safeguarding intellectual property.

There are many different forms of academic dishonesty. The following kinds of honesty violations and their definitions are not meant to be exhaustive. Rather, they are intended to serve as examples of unacceptable academic conduct.

- Plagiarism is taking and presenting as one's own the writings or ideas of others, without citing the source. You should understand the concept of plagiarism and keep it in mind when taking exams and preparing written materials. If you do not understand how to "cite a source" correctly, you must ask for help.
- Cheating is defined as fraud, deceit, or dishonesty in an academic assignment, or using or attempting to use materials, or assisting others in using materials that are prohibited or inappropriate in the context of the academic assignment in question.

Anyone caught cheating or plagiarizing will receive a zero (0) on the exam or assignment, and the instructor may report the incident to the Campus Disciplinary Officer, who may place related documentation in a file. Repeated acts of cheating may result in an F in the course and/or disciplinary action. Please refer to the [General Catalog](#) for more information on academic dishonesty or other misconduct. Acts of cheating include, but are not limited to, the following: (a) plagiarism; (b) copying or

attempting to copy from others during an examination or on an assignment; (c) communicating test information with another person during an examination; (d) allowing others to do an assignment or portion of an assignment; (e) using a commercial term paper service.

Automotive Technology Classroom & Shop Policy

- Electronic Devices: Cell phones and electronic devices must be turned off and put away during class, unless otherwise directed by the instructor.
- Food and Drink are prohibited in all classrooms. Water bottles with lids/caps are the only exception. Additional restrictions will apply in labs. Please comply as directed by the instructor.
- Disruptive Students: Students who disrupt or interfere with a class may be sent out of the room and told to meet with the Campus Disciplinary Officer before returning to continue with coursework. Disciplinary procedures will be followed as outlined in the [General Catalog](#).
- Children in the classroom: Due to college rules and state laws, no one who is not enrolled in the class may attend, including children.

Shop/ Lab Area

- Safety test must be passed to work in the shop and complete required lab exercise.
- Safety glasses are required to be worn at all times while in the shop area, safety glasses are the student responsibility (students not wearing safety glasses will be ask to leave the class for that day no exceptions).
- Clean up your area and any other lose debris or trash.
- Wear all required safety protection and comply with posted signs.
- No shorts or open toe foot wear, always be prepared to go into the lab area.
- Comply with tool check out policy and return tools clean.
- Do not perform any work on any vehicle outside the assigned task without permission from your instructor.
- Long hair must be kept in a ponytail or tucked away for safety.

Faculty and Staff:

All students are required to take direction from any faculty, any issues with direction should be brought up to your instructor, however all staff has the right to direct any student at any time. Please respect the staff's decisions.

Safety Requirements:

For every task perform in this course the following safety requirements must be strictly enforced: Comply with personal and environmental safety practices associated with clothing; eye protection; hand tools; power equipment; proper ventilation; and the handling, storage, and disposal of chemicals/materials in accordance with local, state, and federal safety and environmental regulations.

Parking:

No student parking by the building, the only exception is on lab time if your vehicle is a project (instructor approved). Speed limit must be kept at or under 5MPH.

Parking permit is required at all times.

Projects:

All projects are to be taken with the student's unless otherwise approve by the instructor.

All approved projects must be removed from campus prior to finals.

All projects must have a written work order (R/O).

Shop Maintenance:

All work will cease 20 minutes prior to end of class.

All work areas must be cleaned.

Tools must be cleaned and returned to the tool room.

Any broken or missing tools must be reported immediately. Tools are student's responsibility.

Other Course Information

Imperial Valley College offers various services in support of student success. The following are some of the services available for students. Please speak to your instructor about additional services which may be available.

- **CANVAS LMS.** Canvas is Imperial Valley College's main Learning Management System. To log onto Canvas, use this link: [Canvas Student Login](#). The [Canvas Student Guides Site](#) provides a variety of support available to students 24 hours per day. Additionally, a 24/7 Canvas Support Hotline is available for students to use: 877-893-9853.
- **Learning Services.** There are several learning labs on campus to assist students through the use of computers and tutors. Please consult your [Campus Map](#) for the [Math Lab](#); [Reading, Writing & Language Labs](#); and the [Study Skills Center](#).
- **Library Services.** There is more to our library than just books. You have access to tutors in the [Study Skills Center](#), study rooms for small groups, and online access to a wealth of resources.

IVC Student Resources

IVC wants you to be successful in all aspects of your education. For help, resources, services, and an explanation of policies, visit <http://www.imperial.edu/studentresources> or click the heart icon in Canvas.

Anticipated Class Schedule/Calendar

Week 1: Class Orientation, safety procedures, demonstrations, shop activities, and safety test Chapter 5 Auto Shop Safety. For every chapter in the course there will be a quiz and review question.

Week 2: Automotive Air Conditioning History and Certifications

Lab. activity: 609 A/C Certification, ASE HVAC Certification, MACS worldwide A/C certification.

Week 3: Principles of Air Conditioning

Lab. activity: HVAC system inspection, install gauge set and check system pressures.

Week 4: Air Conditioning Tools, Equipment, and Measuring Systems

Lab. activity: Test condenser performance, Evaporator performance

Week 5: A/C System - Pressure and Temperature

Lab. activity: Check expansion device operation: orifice tube and expansion valve

Week 6: Refrigerants and Lubricants

Lab. activity: A/C system leak check

Week 7: Air Conditioning Components [Compressors + Clutches]

Lab. activity: Evacuate and recharge an A/C system / compressor, clutches disassembly

Week 8: Midterm

Week 9: Spring Break (4/10/23-4/15/23)

Week 10: Automobile Heating Systems

Lab. activity: Check heater system operation. Check Engine Cooling System Operation.

Week 11: Basic Electricity

Lab. activity: Volt-ohmmeter usage and test A/C clutch circuit.

Week 12: Electrical Circuits in HVAC Systems

Lab. activity: Test HVAC blower circuit and cooling fan circuit.

Week 13: Refrigerant Recovery. Recycling and handling

Lab. activity: Use a vehicle to recover refrigerant, vacuum system and recharge to specs by using an A/C Recovery + Recharge unit.

Week 14: Air Conditioner Controls

Lab. activity: Test Electronic and Vacuum operated blend doors actuators, Scanner use in HVAC.

Week 15: Air Conditioning Troubleshooting and Repair

Lab. activity: Diagnose HVAC system problems using all the equipment and resources available.

Week 16: Review for Written Final Exam

Lab. Activity: Hands-on Final Exam

Week 17: Final Exam

[Written exam + Hands-on exam]

*****Subject to change without prior notice*****

Work-based Learning

Career possibilities in automotive industry;

Work-based learning (WBL) allows students to apply classroom content in professional settings while gaining real-world experiences. These opportunities will provide you with a deeper, more engaging and relevant learning environment. This semester, you will be working on workplace simulations through the entire course. Some examples of WBL assignments are job shadowing, informational interviews, and guest speakers.
