## Academic Honesty and Course Policies

**Artificial Intelligence:** IVC values critical thinking and communication skills and considers academic integrity essential to learning. Using AI tools as a replacement for your own thinking, writing, or quantitative reasoning goes against both our mission and academic honesty policy and will be considered academic dishonesty, or plagiarism unless you have been instructed to do so by your instructor. In case of any uncertainty regarding the ethical use of AI tools, students are encouraged to reach out to their instructors for clarification.

**Academic Honesty:** Do not cheat. That means, do not have anyone do the work for you, do not use artificial intelligence (AI), or anything of such nature. Failure to follow IVC's Academic Honesty rules and regulations will result in getting an "F" in the course and further disciplinary actions as deemed necessary by the Vice President of Academic Services will follow.

**Classwork:** You will be given 4 tests throughout this short semester. You will also conduct a video recording of yourself doing a mock intervention. More information will be given on Canvas. All coursework will be done on CANVAS.

**Late Work:** I am NOT accepting late work. The reason is because you will have the whole summer session to complete the exams. When you complete them is up to you, just as long as they are completed by 07/27 at 11:59pm.
