Course Requirements and Instructional Methods

Grades will be based upon class participation, and completion of assignments, pop quizzes, quizzes, and tests throughout the semester. All material presented in the text, study guide, videos, and handouts will be part of the evaluation process.

Out of Class Assignments: The Department of Education policy states that one (1) credit hour is the amount of student work that reasonably approximates not less than one hour of class time and two (2) hours of out-of-class time per week over the span of a semester. WASC has adopted a similar requirement.

Material covered in class, such as slides and videos, will be placed on Canvas, at the discretion of the instructor, and will remain available for students to review. Please keep in mind that this is an On-campus course, and not all class content will be placed on Canvas- Canvas will be used to support in class instruction.

Course Assessments:

*NOTE: For the various required course work addressed below, *(PLO #) indicates the Child Development Program Learning Outcome that is met by passing completion of the work*

***Quizzes:** There will be two 5 point quizzes for each of the test sections- So, a total of 8 quizzes.. These quizzes are basic and intended to help you review the material and introduce you to the type of questions you will see in the exams. However, they may not be the exact questions in the exams. The quizzes will open near the beginning of the Unit and close on the due date of the Unit.*

No late quizzes or Exams are allowed without prior permission from instructor-So, if you have an emergency that will prevent you from completing the work due, you must notify the instructor prior to the due date-A missed assignment or test is considered an "F" and no points will be given. Plan your schedule to allow for ample study time so you will be prepared. There is no penalty for taking a quiz or test before the scheduled time.

***Discussions:** A total of 3 Discussion submissions will be required for the course. Each Discussion will center on a topic question posed by the instructor, and will primarily ask for your opinion related to the question or to the responses of other students.*

Your Discussion response will be graded on whether it is a well thought out response, that it is clear from your response that you did the reading, and that your opinion is based on evidence from your readings or a thoughtful response of another student's post.

You should respond when you have something to say and don't be afraid to engage in an argument, just remember that you need to be respectful to all students.

Take care to make sure your responses all well-supported, and free of grammatical errors.

If any student uses inappropriate language or is disrespectful to another student, that student will lose points and need to have a personal conversation with the instructor.

Using AI tools as a replacement for your own thinking, writing, or quantitative reasoning goes against both our mission and academic honesty policy and will be considered academic dishonesty, or plagiarism unless you have been instructed to do so by your instructor. In case of any uncertainty regarding the ethical use of AI tools, students are encouraged to reach out to their instructors for clarification.
