Updated 11/2024

- *Having someone else take an exam or quiz for you;*
- *Conferring with others during a test or quiz (if the instructor didn't explicitly say it was a group project, then he/she expects you to do the work without conferring with others);*
- *Buying or using a term paper or research paper from an internet source or other company or taking any work of another, even with permission, and presenting the work as your own;*
- *Using AI Tools to complete coursework;*
- *Excessive revising or editing by others that substantially alters your final work;*
- *Sharing information that allows other students an advantage on an exam (such as telling a peer what to expect on a make-up exam or prepping a student for a test in another section of the same class);*
- *Taking and using the words, work, or ideas of others and presenting any of these as your own work is plagiarism. This applies to all work generated by another, whether it be oral, written, or artistic work. Plagiarism may either be deliberate or unintentional.*
