

IMPERIAL VALLEY COLLEGE

Basic Course Information

Semester:	Spring 2025	Instructor Name:	Milana Johnson, PsyD, LMFT
Course Title & #:	PSY 208/Abnormal Psychology	Email:	milana.johnson@imperial.edu
CRN #:	20403	Webpage (optional):	-
Classroom:	Building 300, Room 314	Office #:	-
Class Dates:	2/10/25-6/6/25	Office Hours:	ONLINE & BY APPT ONLY
Class Days:	Monday & Wednesday	Office Phone #:	-
Class Times:	9:40am-11:05am	Emergency Contact:	Krista Byrd 760-455-2555
Units:	3.00	Class Format/Modality:	Face to Face

Course Description

Covers the major categories of mental disorders listed in the latest version of the Diagnostic and Statistical Manual of Mental Disorders (DSM). Draws upon important contributions from various disciplines and theoretical stances. Case studies and research-based explanations are examined. Controversial topics related to mental disorder are explored.

Course Prerequisite(s) and/or Corequisite(s)

RECOMMENDED PREPARATION: PSY 101, PSY 200 and PSY 142, - Twelfth grade reading level is highly recommended.

Student Learning Outcomes

Upon course completion, the successful student will have acquired new skills, knowledge, and or attitudes as demonstrated by being able to:

- 1. Compare and contrast the psychological perspectives on mental disorders.*
- 2. Demonstrate an understanding of the major mental disorders' symptoms and causes.*
- 3. Demonstrate an understanding of the varied treatments for major mental disorders.*

Course Objectives

Upon satisfactory completion of the course, students will be able to:

- 1. Discuss the historical, theoretical, and methodological context for the study of abnormal behavior.*
- 2. Identify the major mental disorders and describe the symptoms, diagnosis, etiology and treatment of each.*
- 3. Provide examples of community and institutional intervention programs and discuss their effectiveness in dealing with mental disorder.*
- 4. Identify and discuss contemporary legal and ethical issues in abnormal psychology.*

5. Explain specific research methods and the ethical principles for the study and treatment of psychopathology.

Textbooks & Other Resources or Links

Butcher and Hooley. 2021. *Abnormal Psychology*. 18th Pearson. ISBN: 9780137554676

Durand, Barlow & Hofmann. 2019. *Essentials of Abnormal Psychology*. 8 Cengage. ISBN: 978-1337619370.

Recommended (but not required): *Diagnostic and statistical manual of the American Psychiatric Association. (DSM V or DSM V-TR)*

Course Requirements and Instructional Methods

Lecture Topics

Below is an outline of what will be covered in this course. It is a lot of material and very detailed information. Should any lecture or material NOT be covered in class due to unforeseen circumstances, class discussions, or have simply ran out of time, YOU ARE RESPONSIBLE for reviewing material on your own.

- *Psychopathology and Mental Disorders: Historical, Cultural, Social, Scientific, and Ethical Considerations*
- *Issues in classification and diagnosis*
 1. *DSM-V or DSM-V-TR*

- *Introduction to Clinical Assessment Procedures*
- *Research Methodology in Psychopathology*
 1. *Descriptive, epidemiological, experimental and single-subject research designs*
- *Theories and Paradigms in Psychopathology*
 1. *Biological paradigm*
 2. *Psychodynamic paradigm*
 3. *Humanistic and existential paradigm*
 4. *Behavioral/learning paradigm*
 5. *Cognitive paradigm*
- *Psychological Disorders (characteristics, etiology, and treatment):*
 1. *Anxiety disorders*
 2. *Somatoform and Dissociative Disorders*
 3. *Mood Disorders*
 4. *Schizophrenia*
 5. *Substance-related Disorders*
 6. *Personality Disorders*
 7. *Sexual Dysfunctions and Gender Identity Disorders*
 8. *Disorders of Childhood and Adolescence*
 9. *Eating Disorders*
- *Outcomes and Issues of Psychological Intervention*

Out-of-class:

Assignments that include but are not limited to applying psychological theory discussed in class and text to self-and/or real-world settings. For example, students can research and do class presentation on specific mental disorder. Movie/Video Analysis where groups of students choose a movie related to abnormal psychology and write a paper in APA style on how the character with the mental disorder is portrayed, the symptoms and if there is any treatment.

Reading and Writing:

Reading assignments include but not limited to assigned text readings; current articles and/or sources from the internet. Students give written and/or verbal critical analysis of the readings via discussion posts and/or in-class discussion. Written assignments include reflective responses, sharing the students' viewpoints and opinions regarding abnormal psychology. Research paper on a specific psychological disorder in APA style.

Quizzes:

A total of five quizzes will be given throughout the course that will cover ALL readings and lectures. An outline will be provided in advance (no more than a week prior) to indicate what you will be quizzed on to ensure enough preparation and study time. Each quiz will be at the start of class and will consist of 10 multiple choice, fill-in-the-blank, and short answer questions. NO MAKE-UP QUIZZES WILL BE GIVEN. Each quiz is worth 10 points.

Discussion Posts:

Discussion board posts are due on a weekly basis to ensure ongoing participation, distance learning, and discussion of course content. Initial posts are due by 11:59pm on the Thursday following the last class of each week and 2 peer responses are due by 11:59pm on the Sunday before class. Discussion posts are expected to be critically thought-out reflections on course material covered in class and readings. Discussion posts will not be open to post until end of the last class of the week. Each initial post is worth 2.5 points and the two peer responses are worth 2.5 points total.

Exams:

Two (2) exams will be given in this course a midterm and a final exam. Exams will consist of multiple choice, fill-in-the-blank, short answer, and essay questions from the class material and readings. No make-up exams will be given unless you have spoken to me PRIOR to the exam in which you will have one week to make up the exam. Each exam will be worth 100 points.

Written Assignments:

There are four (4) written assignments assigned in this course which include a self-reflection/thought paper (25 points), two (2) critical analysis papers, a movie/video analysis and an analysis of psychological research, theory, or concept (50 points each), and a research paper on a psychological disorder (75 points). All written assignments will be written in APA format. Resources and rubrics will be provided. Details and more information will be discussed in class.

Presentation:

Students will research and present a specific mental disorder. Presentation must include but are not limited to symptoms, causes, and treatments. Other details and information to be determined and will be discussed in class.

Participation:

Participation is a requirement in this course. It is expected that you come to class prepared and ready to learn which includes initiating or engaging in class discussions and completing weekly discussion posts. Class discussions are proven ways to enrich and create meaningful pathways to better understanding material and content presented to you.

>>> This course will consist of a combination of lectures, assigned readings (recommended/required), class activities/group work, quizzes, exams, discussions (in-class/CANVAS), presentation, and written assignments.

>>> Active participation will be expected in class and on CANVAS (i.e. response to peers' discussion posts) to demonstrate an understanding of the course content and material.

>>> Respect and classroom etiquette are very crucial and important in creating a safe learning environment for students and others around you. Please be respectful and considerate of your classmates and colleagues. We all come from different or similar backgrounds, values, and beliefs surrounding mental health and psychology. Let's do our part by being inclusive of one another and bring an open mind to class discussions.

>>> Two (2) hours of independent work done out of class per each hour of lecture or class work, or 3 hours lab, practicum, or the equivalent per unit is expected.

Course Grading Based on Course Objectives

Grading Scale

A: 90-100% 540-600

B: 80-89% 480-539

C: 70-79% 420-479

D: 60-69% 360-419

F: 59% and lower <359

Assignment	Total Points Possible
Discussion Posts/Responses (15 @ 5 pts each)	/75
Quizzes (5 @ 10 pts each)	/50
Participation	/25
Written Assignments	/25, /50, /50, /75
Presentation	/50
Midterm Exam	/100
Final Exam	/100
	TOTAL POINTS= 600

Academic Honesty (Artificial Intelligence -AI)

IVC values critical thinking and communication skills and considers academic integrity essential to learning. Using AI tools as a replacement for your own thinking, writing, or quantitative reasoning goes against both our mission and academic honesty policy and will be considered academic dishonesty, or plagiarism unless you have been instructed to do so by your instructor. In case of any uncertainty regarding the ethical use of AI tools, students are encouraged to reach out to their instructors for clarification.

Accessibility Statement

Imperial Valley College is committed to providing an accessible learning experience for all students, regardless of course modality. Every effort has been made to ensure that this course complies with all state and federal accessibility regulations, including Section 508 of the Rehabilitation Act, the Americans with Disabilities Act (ADA), and the Title 5 of the California Code of Regulations. However, if you encounter any content that is not

accessible, please contact your instructor of the area dean for assistance if you have specific accommodations through **DSPS**, contact them for additional assistance.

We are here to support you and ensure that you have equal access to all course materials.

Course Policies

1. A student who fails to attend the first meeting of a class or does not complete the first mandatory activity of an online class will be dropped by the instructor as of the first official meeting of that class. Should readmission be desired, the student's status will be the same as that of any other student who desires to add a class. It is the student's responsibility to drop or officially withdraw from the class. See General Catalog for details.
2. Regular attendance in all classes is expected of all students. A student whose continuous, unexcused absences exceed the number of hours the class is scheduled to meet per week may be dropped. For online courses, students who fail to complete required activities for two consecutive weeks may be considered to have excessive absences and may be dropped.
3. Absences attributed to the representation of the college at officially approved events (conferences, contests, and field trips) will be counted as 'excused' absences.
4. **Electronic Devices:** Cell phones and electronic devices must be turned off and put away during class, unless otherwise directed by the instructor.
5. **Food and Drink** are prohibited in all classrooms. Water bottles with lids/caps are the only exception. Additional restrictions will apply in labs. Please comply as directed by the instructor.
6. **Disruptive Students:** Students who disrupt or interfere with a class may be sent out of the room and told to meet with the Campus Disciplinary Officer before returning to continue with coursework. Disciplinary procedures will be followed as outlined in the General Catalog.
7. **Children in the classroom:** Due to college rules and state laws, only students enrolled in the class may attend; children are not allowed.
