

### Basic Course Information

Semester:	<b>Spring 2025</b>	Instructor Name:	<b>Dr. Behrang Madani</b>
Course Title & #:	<b>Chemistry 100 Introduction to Chemistry</b>	Email:	<b>Behrang.madani@imperial.edu</b>
CRN #:	<b>20479, 20480</b>	Webpage:	<b><a href="http://spaces.imperial.edu/behrang.madani/default.html">http://spaces.imperial.edu/behrang.madani/default.html</a></b>
Classroom:	<b>Lecture online &amp; Lab room 2717</b>	Office #:	<b>2773</b>
Class Dates:	<b>Feb 10 to Jun 6</b>	Office Hours:	<b>MW: 10:00am – 11:00 am online Zoom TR: 11:30am – 12:30pm online Zoom <a href="https://imperial-edu.zoom.us/j/89758629835">https://imperial-edu.zoom.us/j/89758629835</a></b>
Class Days:	<b>CRN 20479: M (Lab), Online (Lec) CRN 20480: W (Lab), Online (Lec)</b>	Office Phone #:	<b>(760) 355-6477</b>
Class Times:	<b>CRN 20479: 11:20 am-2:30 pm (Lab) CRN 20480: 2:40 pm-5:50 pm (Lab)</b>	Emergency Contact:	<b>Department Secretary (760) 355-6155</b>
Units:	<b>4.0</b>		

### Course Description

Elementary principles of general inorganic chemistry, a preparatory course for CHEM 200. Previous science background is recommended but not required. This course is designed for non-science majors and students who need only a one-semester general chemistry course, and also for students entering a paramedical and allied health fields, and industrial applications such as power plants. This course will satisfy the prerequisite for CHEM 200.(C-ID: CHEM 101) (CSU, UC credit limited. See a counselor.)

**Prerequisite:** Intermediate Algebra or appropriate placement as defined by AB 705 with a grade of "C" or better.

### Student Learning Outcomes

Upon course completion, the successful student will have acquired new skills, knowledge, and or attitudes as demonstrated by being able to:

1. Solve chemical problems using modern atomic theory. (ILO2, ILO4)
2. Perform chemical experiments in a scientific manner using proper techniques, data analysis, and safety equipment. (ILO2, ILO3, ILO4)

### Course Objectives

Upon satisfactory completion of the course, students will be able to:

1. calculate English and metric unit conversions and measurements using dimensional analysis.
2. write symbols for elements and know common ionic charges.

3. derive and write formulas and names for chemical compounds.
4. write and balance common chemical equations and identify reaction types.
5. solve stoichiometric problems, including their solutions using dimensional analysis.
6. describe atomic structure including isotopes, periodicity and molecular structure in terms of subatomic particles.
7. identify types of energy and calculate specific heat; identify energy involved in change of state including heat of vaporization and predict behaviors in cooling curves; calculate caloric and nutritional values of various foods.
8. describe gas behavior and solve problems involving the various gas laws.
9. identify the type of intermolecular forces existing between molecules, and its effect on macroscopic property of the substance.
10. calculate solution concentration of various types including dilutions.
11. determine the oxidant/reductant and balance redox equations.
12. define the three basic concepts (Arrhenius, Bronsted-Lowry and Lewis) of acids and bases and perform titration experiments and calculate pH.
13. describe nuclear processes and write nuclear equations using the subatomic particles involved and identify health factors and risks involved.
14. use Le Chatelier's Principle to predict the shift in the direction of the reactants/products

### Textbooks & Other Resources or Links

1. [Introductory to Chemistry \(Links to an external site.\)](#), ISBN 13: 9781453311073

You have several options to obtain this book:

(Preferred) [The book on Libretxts \(Links to an external site.\)](#)

- For the textbook: click on (in above link)
- [View online \(Links to an external site.\)](#) (Links to an external site.)
- [Download a PDF \(Links to an external site.\)](#) (Links to an external site.)
- [Order a print copy \(Links to an external site.\)](#)(Links to an external site.)

2. Chemistry 100 Laboratory Manual available at **IVC STEM/CHEM Club** (\$20)
3. Safety goggles (\$5; needed on second class day). The goggles must completely enclose the area around the eyes.
4. Non-programmable scientific calculator (\$15 - \$25): Ti-30X IIB or Ti-30X IIS are recommended. You will need to use logarithms, functions, exponents, scientific notation, etc. **Bring this to all lecture and lab meetings.**
5. Seven (7) Scantron Sheets Form No. 882-E for exams and final.
6. Close-toed shoes for labs
7. Registration with Achieve via Canvas to do your homework (\$40) – requires credit/debit card.
8. Problem set packet (optional)

### Course Requirements and Instructional Methods

**Exams:** You have 6 exams including the final exam (see your course schedule). Some exams are online and some exams are in the class. There are study guides/reviews on Canvas and you can study before each test and final exam. There are **no make-up exams**. Your lowest test grade, excluding the final test grade, will be dropped. If you miss a test, the test can be dropped as your lowest test grade.

**Homework:** Each homework has a due date and always finishes at 11:59pm. The goal is to give you sufficient practice to enable you to be successful on the examinations. Homework problems are found online using Canvas. The lowest homework scores will be dropped. You have 3 attempts per question to answer correctly. There will be no penalty for correctly answering on the first, second, or third attempt. There is no penalty for viewing the hint. In order to grade your answer and find out if you answered correctly, you should press “CHECK ANSWER.” If you wish to switch to another question without checking the answer for the current question, you can press “NEXT” or use the map at the top right corner of the question. After the due date, the homework assignment cannot be worked on but can be viewed. Late homework, lab reports, projects, etc will not be accepted and you will have earned zero for that work.

**Lab Experiments:** We are going to have 8 experiments during the semester. You will work with your partner and prepare the lab report using the lab manual. I will drop the lowest lab grade. **No make-up lab.**

**Lab final exam:** At the end of the semester (final week), we will have an exam for the lab experiments in the class (it is not online). You need to know all experiments, safety rules, name of equipment, and their applications. There is **no make-up** because the date and time of the lab final is the last week of the semester.

**Final Exam:** The Final Exam is comprehensive, and it will be in the class (it is not online). There is **no make-up** because the date and time of the final exam is the last week of the semester.

## Get Started

Please Find your course on Canvas and go to the home page. Click on “Start Here” and it will send you to Modules section. Study lab safety rules and list of the lab equipment. Then, register for Achieve website using the link on Canvas to start doing the assignments. **Please do not go directly to Achieve website and always open the Achieve website via Canvas.**

## How to contact your Instructor:

- Email me any time at: [behrang.madani@imperial.edu](mailto:behrang.madani@imperial.edu)
- I will respond to your email within 24 hours at any day during the week
- I will be in the lab during experiments. You can ask your questions there.
- Use Pronto on canvas to chat with me
- Attend the office hours through zoom
- You may need help from the [IVC library \(Links to an external site.\)](#) for technical support

## How I Will Contact You

I will be an active participant in this course. You can expect that I will reach out to you many times each week, via the following methods:

- **Announcements:** I typically make an announcement in the labs. Sometimes, I post an announcement on Canvas. Keep an eye out for this important information!
- **Canvas Inbox messages:** I will occasionally reach out via the Inbox to check in with you.

- **Videos and other stuffs:** I will post on canvas a lecture video, PowerPoint slides, problem sets and more each week for each chapter.

### Course Grading Based on Course Objectives

- **Study Hints:** Chemistry is a very demanding course. Depending on your background, you will need to spend 1-4 hours outside of lab to get your work done. Missing a lecture usually means your grade falls by  $\frac{1}{2}$  grade.
- **Do not fall behind.** Two things are very important in order to learn better:
  - **Go to office hours**
  - **Get a tutor**

### Course Grading on Course Objectives

Homework	17.05%
Lab report	26.14%
Lab final exam	5.68%
Lecture exams	34.09%
Final exam	17.05%

Your final grade will be assigned based on following manner:

90% - 100%	A
80% - 89%	B
70% - 79%	C
60% - 69%	D
Below 59%	F

### Attendance

- A student who fails to attend the first meeting of a class or does not complete the first mandatory activity of an online class will be dropped by the instructor as of the first official meeting of that class. Should readmission be desired, the student's status will be the same as that of any other student who desires to add a class. It is the student's responsibility to drop or officially withdraw from the class. See General Catalog for details.
- Regular attendance in all classes is expected of all students. A student whose continuous, unexcused absences exceed the number of hours the class is scheduled to meet per week may be dropped. For online courses, students who fail to complete required activities for two consecutive weeks may be considered to have excessive absences and may be dropped.

### Classroom Etiquette

- **Add/Drop:** It is the responsibility of the student to take the necessary steps to add and/or drop the class by the college deadlines.

- **Late Submissions** Any late work (homework assignment, project, lab report, exams) will not be accepted after the due date. If you have an urgent issue or an emergency talk with me in advance to extend the due date for you.

### Online Netiquette

**What is netiquette?** Netiquette is internet manners, online etiquette, and digital etiquette all rolled into one word. Basically, netiquette is a set of rules for behaving properly online. • Students are to comply with the following rules of netiquette: (1) identify yourself, (2) include a subject line, (3) avoid sarcasm, (4) respect others' opinions and privacy, (5) acknowledge and return messages promptly, (6) copy with caution, (7) do not spam or junk mail, (8) be concise, (9) use appropriate language, (10) use appropriate emoticons (emotional icons) to help convey meaning, and (11) use appropriate intensifiers to help convey meaning [do not use ALL CAPS or multiple exclamation marks (!!!!)].

### Academic Honesty

Academic honesty in the advancement of knowledge requires that all students and instructors respect the integrity of one another's work and recognize the important of acknowledging and safeguarding intellectual property.

There are many different forms of academic dishonesty. The following kinds of honesty violations and their definitions are not meant to be exhaustive. Rather, they are intended to serve as examples of unacceptable academic conduct.

- Plagiarism is taking and presenting as one's own the writings or ideas of others, without citing the source. You should understand the concept of plagiarism and keep it in mind when taking exams and preparing written materials. If you do not understand how to "cite a source" correctly, you must ask for help.
- Cheating is defined as fraud, deceit, or dishonesty in an academic assignment, or using or attempting to use materials, or assisting others in using materials that are prohibited or inappropriate in the context of the academic assignment in question.

Anyone caught cheating or plagiarizing will receive a zero (0) on the exam or assignment, and the instructor may report the incident to the Campus Disciplinary Officer, who may place related documentation in a file. Repeated acts of cheating may result in an F in the course and/or disciplinary action. Please refer to the [General Catalog](#) for more information on academic dishonesty or other misconduct. Acts of cheating include, but are not limited to, the following: (a) plagiarism; (b) copying or attempting to copy from others during an examination or on an assignment; (c) communicating test information with another person during an examination; (d) allowing others to do an assignment or portion of an assignment; (e) using a commercial term paper service.

### Additional Student Services

Imperial Valley College offers various services in support of student success. The following are some of the services available for students. Please speak to your instructor about additional services which may be available.

- **CANVAS LMS.** Canvas is Imperial Valley College’s main Learning Management System. To log onto Canvas, use this link: [Canvas Student Login](#). The [Canvas Student Guides Site](#) provides a variety of support available to students 24 hours per day. Additionally, a 24/7 Canvas Support Hotline is available for students to use: 877-893-9853.
- **Learning Services.** There are several learning labs on campus to assist students through the use of computers and tutors. Please consult your [Campus Map](#) for the [Math Lab](#); [Reading, Writing & Language Labs](#); and the [Study Skills Center](#).
- **Library Services.** There is more to our library than just books. You have access to tutors in the [Study Skills Center](#), study rooms for small groups, and online access to a wealth of resources.

### Disabled Student Programs and Services (DSPS)

Any student with a documented disability who may need educational accommodations should notify the instructor or the [Disabled Student Programs and Services \(DSP&S\)](#) office as soon as possible. The DSP&S office is located in Building 1200, telephone 760-355-6434. Please contact them if you feel you need to be evaluated for educational accommodations.

### Student Counseling and Health Services

Students have counseling and health services available, provided by the pre-paid Student Health Fee.

- **Student Health Center.** A Student Health Nurse is available on campus. In addition, Pioneers Memorial Healthcare District provide basic health services for students, such as first aid and care for minor illnesses. Contact the IVC [Student Health Center](#) at 760-355-6128 in Room 1536 for more information.
- **Mental Health Counseling Services.** Short-term individual, couples, family and group counseling services are available for currently enrolled students. Services are provided in a confidential, supportive, and culturally sensitive environment. Please contact the IVC Mental Health Counseling Services at 760-355-6310 or in the building 1536 for appointments or more information..

### Veteran’s Center

The mission of the [IVC Military and Veteran Success Center](#) is to provide a holistic approach to serving military/veteran students on three key areas: 1) Academics, 2) Health and Wellness, and 3) Camaraderie; to serve as a central hub that connects military/veteran students, as well as their families, to campus and community resources. Their goal is to ensure a seamless transition from military to civilian life. The Center is located in Building 600 (Office 624), telephone 760-355-6141.

### Extended Opportunity Program and Services (EOPS)

The Extended Opportunity Program and Services (EOPS) offers services such as priority registration, personal/academic counseling, tutoring, book vouchers, and community referrals to qualifying low-income students. EOPS is composed of a group of professionals ready to assist you with the resolution of both academic and personal issues. Our staff is set up to understand the problems of our culturally diverse population and strives to meet student needs that are as diverse as our student population.

Also under the umbrella of EOPS our CARE (Cooperative Agency Resources for Education) Program for single parents is specifically designed to provide support services and assist with the resolution of issues that are particular to this population. Students that are single parents receiving TANF/Cash Aid assistance may qualify for our CARE program, for additional information on CARE please contact Lourdes Mercado, 760-355- 6448, [lourdes.mercado@imperial.edu](mailto:lourdes.mercado@imperial.edu).

EOPS provides additional support and services that may identify with one of the following experiences:

- Current and former foster youth students that were in the foster care system at any point in their lives
- Students experiencing homelessness
- Formerly incarcerated students

To apply for EOPS and for additional information on EOPS services, please contact Alexis Ayala, 760-355-5713, [alexis.ayala@imperial.edu](mailto:alexis.ayala@imperial.edu).

### **Student Equity Program**

- The Student Equity Program strives to improve Imperial Valley College's success outcomes, particularly for students who have been historically underrepresented and underserved. The college identifies strategies to monitor and address equity issues, making efforts to mitigate any disproportionate impact on student success and achievement. Our institutional data provides insight surrounding student populations who historically, are not fully represented. Student Equity addresses disparities and/or disproportionate impact in student success across disaggregated student equity groups including gender, ethnicity, disability status, financial need, Veterans, foster youth, homelessness, and formerly incarcerated students. The Student Equity Program provides direct supportive services to empower students experiencing insecurities related to food, housing, transportation, textbooks, and shower access. We recognize that students who struggle meeting their basic needs are also at an academic and economic disadvantage, creating barriers to academic success and wellness. We strive to remove barriers that affect IVC students' access to education, degree and certificate completion, successful completion of developmental math and English courses, and the ability to transfer to a university. Contact: 760.355.5736 or 760.355.5733 Building 100.
- The Student Equity Program also houses IVC's Homeless Liaison, who provides direct services, campus, and community referrals to students experiencing homelessness as defined by the McKinney-Vento Act. Contact: 760.355.5736 Building 100.

### **Student Rights and Responsibilities**

Students have the right to experience a positive learning environment and to due process of law. For more information regarding student rights and responsibilities, please refer to the IVC [General Catalog](#).

## Information Literacy

Imperial Valley College is dedicated to helping students skillfully discover, evaluate, and use information from all sources. The IVC [Library Department](#) provides numerous [Information Literacy Tutorials](#) to assist students in this endeavor.

## Important dates

### Important Dates and Deadlines

**NOTE:** The deadlines below are for full-term classes. Deadlines for short-term classes vary with the length of the class. Most deadlines are mandated in the CA Code of Regulations and are a percentage of the length of the class.

Beginning October 1	New and former students may file an admission application for Winter/Spring 2025 and/or Summer/Fall 2025.
November 4	Priority registration begins
February 9	Residency determination date.
February 10	<b>Spring classes begin.</b>
February 10 - 22	<b>Late Registration. Beginning on the first day each class meets, add authorization code from instructor required to register for that class, filled or open.</b>
February 14	<b>Holiday</b> – Lincoln’s Birthday. No classes.
February 17	<b>Holiday</b> – Washington’s Birthday. No classes.
February 22	<b>Deadline to register for full-term courses. Deadline to drop full-term classes and be eligible for a Refund. Deadline to select P/NP grading option for courses with that option.</b>
February 23 *Sunday*	<b>Deadline to drop Spring full-term classes without a W and no fees.</b>
February 24	Ticketing for parking violations in student spaces on main campus begins. Note: tickets are issued for reserved (faculty/staff), disabled, metered, 15-minute, and no-parking spaces year around.
March 7	<b>Financial Aid Freeze Date</b> - Complete withdrawal before this date will require financial aid eligibility recalculation and funds may be owed.
April 21 – 25	<b>Spring Recess.</b> No classes.
April 11	<b>Deadline to submit <i>Petition for Graduation</i> for degree to be awarded for Spring and Summer 2024 and participate in Commencement.</b> Students must meet with a Counselor and have an evaluation completed before this date.
April 16	<b>Return to Title IV Drop Date</b> - Units enrolled as of this date will be used to determine enrollment status for financial aid payment.
May 10** *Saturday*	<b>Deadline to drop full-term classes with a W. (Note: This deadline date is not for short-term classes.)</b>
May 26	<b>Holiday</b> – Memorial Day. No classes.
June 2 - 6	Final Exams.
June 6	<b>Deadline to apply to receive degree or certificate at end of Spring Intersession and not participate in Commencement.</b> Completed petition must be received in Admissions & Records Office by this date. Students must meet with a Counselor and have an evaluation completed and petition signed before this date. <b>STUDENTS ARE NOT ELIGIBLE TO PARTICIPATE IN GRADUATION CEREMONY.</b>
June 7	Commencement Ceremony

<b>Anticipated Class Schedule/Calendar</b>
--

Wk	Date	Lecture (Online)	Lab (Room 2715)
1	Feb 10 - Feb 12	Ch 1 & 2: Chemical World, Measurement	Syllabus, Safety, Lab Check in, Ch 2: Measurement, Problem Set 1
2	Feb 17 - Feb 19	Ch 3: Matter and Energy Problem Set 1	No class for Monday section  Lab 1: Measurement and Density Problem Set 1
3	Feb 24 – Feb 26	Ch 4: Atoms and Elements	Lab 2: Heat and Specific Heat Problem Set 2
4	Mar 3 – Mar 5	Ch 5: Molecules and Compounds Problem Set 3	<b>Lecture Exam 1 (Chap. 1-4)</b>
5	Mar 10 – Mar 12	Ch 6: Chemical Composition Problem Set 4	Lab 3: Determining the percent water in a hydrated metal salt
6	Mar 17 – Mar 19	Ch 7: Chemical Reactions Problem Set 5	Problem Set 4 and 5
7	Mar 24 – Mar 26	Ch 8: Quantities in Chemical Reactions Problem set 6	Lab 4: Chemical Reaction and Net Ionic Equation
8	Mar 31 – Apr 2	Ch 9: Electrons in Atoms and the Periodic Table Problem Set 7	<b>Lecture Exam 2 (Chap. 5-6)</b>
9	Apr 7 – Apr 9	Ch 10: Chemical Bonding Problem Set 8	Lab 5: Lewis Structure, Molecular's Shape and Polarity
10	Apr 14 – Apr 16	Ch 11: Gases Problem Set 9	<b>Lecture Exam 3 (Chap. 7-8)</b>
11	Apr 21 – Apr 23	Spring Recess – No classes	
12	Apr 28 – Apr 30	Ch 12: Liquid, Solids, and Intermolecular Forces	Lab 6: Molar Volume of Gas
13	May 5 – May 7	Ch 13: Solutions Problem Set 10	Lab 7: Le Chatelier's Principle in Chemical Equilibrium
14	May 12 – May 14	Ch 14: Acids and Bases Problem Set 11	<b>Lecture Exam 4 (Chap. 9-12)</b>
	May 19 – May 21	Ch 15: Chemical Equilibrium-Problem Set 12	Lab 8: Titration of Vinegar
15	May 26 – May 28	Ch 16: Redox Reactions Problem Set 12	Na class for Monday section  <b>Lecture Exam 5 (Chap. 13-15)</b>
16	Jun 2 – Jun 4	<b>Final Exam</b> (All chapters)	<b>Lab Final Exam</b> (all labs) and Check out

**Note:** The course syllabus is intended to provide students with basic information concerning the course. The syllabus can be viewed as a "blueprint" for the course; **changes in the syllabus can be made and students will be informed** of any substantial changes concerning exams, grading or attendance policy and/or changes to reading or homework assignments.
