Course Description

This course explores how anthropologists study and compare human culture. Cultural anthropologists seek to understand the broad arc of human experience focusing on a set of central issues: how people around the world make their living (subsistence patterns); how they organize themselves socially, politically, and economically; how they communicate; how they relate to each other through family and kinship ties; what they believe about the world (belief systems); how they express themselves creatively (expressive culture); how they make distinctions among themselves such as through applying gender, racial, and ethnic identity labels; how they have shaped and been shaped by social inequalities such as colonialism; and how they navigate culture change and processes of globalization that affect us all. Ethnographic case studies highlight these similarities and differences and introduce students to how anthropologists do their work, employ professional anthropological research ethics, and apply their perspectives and skills to understand humans around the globe. (C-ID: ANTH 120) (CSU/UC)

Course Prerequisite(s) and/or Corequisite(s)

None.

Student Learning Outcomes

Upon course completion, the successful student will have acquired new skills, knowledge, and or attitudes as demonstrated by being able to:

- 1. Define the main goals and aims of cultural anthropology.
- 2. Describe the holistic and comparative approach.
- 3. Explain the difference between ethnocentrism and cultural relativism demonstrating how cultural anthropology approach global cultural diversity.

Course Objectives

Upon satisfactory completion of the course, students will be able to:

- 1. Describe the goals of anthropology and its emphasis on cultural diversity.
- 2. Describe the comparative and holistic perspectives in studying culture as well as ethnocentrism and cultural relativism and the importance of ethnographic studies.
- 3. Summarize the development of theories in cultural anthropology and the ethical issues anthropologists encounter and professional ethical obligations that must be met in the study of and application in cultural groups different from their own.
- 4. Demonstrate knowledge of economic subsistence strategies from forgers to agriculture and the interconnectedness of economic, political, and sociocultural forces of globalization amongst diverse cultural groups.
- 5. Describe why the family is the core of society and how kinship affects gender roles.
- 6. Describe the multifariousness of supernatural beliefs and their importance in human society globalization.
- 7. Understand how language serves as a basis for communication and cognitive perception.
- 8. Demonstrate an awareness of the antiquity and creative forces of art and cultural change in human history.
- 9. Explain the difference between ethnicity and the concept of race as a cultural construct.
- 10. Recognize how Applied Anthropology is used in CRM studies such as archaeology, as well as in medical anthropology, business, education, and economics.

Course Requirements and Instructional Methods

Course Requirements

Out-of-class

Discussions, Writing Assignments, Group Project, and Final Project

In addition to weekly readings and lectures, this course includes a variety of activities designed to enhance your understanding of the course materials and strengthen your ability to apply anthropological concepts in real-world contexts. You will participate in Discussions to engage critically with the readings and your peers, complete Writing Assignments that encourage deeper reflection and analysis, collaborate with classmates on a Group Project to explore anthropological themes in a shared context, and culminate the term with a Final Project that integrates and applies what you have learned. These components are designed to support a hands-on, applied approach to anthropology, fostering both academic and practical skills.

In-Class

Course Participation

Students are expected to participate and interact with the instructor and with classmates. Your participation will be assessed through discussions and quizzes.

- Participation Expectations (with classmates and the instructor):
 - Be actively involved in your own learning.
 - Pay attention to emails and announcements in the course. Sign in to your course a few times a week so
 - you don't miss anything.

Academic Honesty (Artificial Intelligence -AI)

IVC values critical thinking and communication skills and considers academic integrity essential to learning. Using AI tools as a replacement for your own thinking, writing, or quantitative reasoning goes against both our mission and academic honesty policy and will be considered academic dishonesty or plagiarism unless you have been instructed to do so by your instructor. In case of any uncertainty regarding the ethical use of AI tools, students are encouraged to reach out to their instructors for clarification.

Accessibility Statement

Imperial Valley College is committed to providing an accessible learning experience for all students, regardless of course modality. Every effort has been made to ensure that this course complies with all state and federal accessibility regulations, including Section 508 of the Rehabilitation Act, the Americans with Disabilities Act (ADA), and Title 5 of the California Code of Regulations. However, if you encounter any content that is not accessible, please contact your instructor or the area dean for assistance. If you have specific accommodations through *DSPS*, contact them for additional assistance.

We are here to support you and ensure that you have equal access to all course materials.

Course Policies

Attendance

A student who fails to attend the first meeting of a class or does not complete the first mandatory activity of an online class will be dropped by the instructor as of the first official meeting of that class. Should readmission be desired, the student's status will be the same as that of any other student who desires to add a class. It is the student's responsibility to drop or officially withdraw from the class.

Regular attendance in all classes is expected of all students. A student whose continuous, unexcused absences exceed the number of hours the class is scheduled to meet per week may be dropped. For online courses, students who fail to complete required activities for two consecutive weeks may be considered to have excessive absences and may be dropped. Absences attributed to the representation of the college at officially approved events (conferences, contests, and field trips) will be counted as 'excused' absences.

Netiquette

• "Netiquette" refers to the rules of behaving well online. It can be more difficult to discern meaning in written text than in spoken conversation, so pay particular attention to your words.

• Keep your language clear and concise; ensure posts are on-topic; use correct spelling, grammar, and capitalization (all caps = yelling); and contribute productively to conversations.

Academic Honesty

Academic honesty in the advancement of knowledge requires that all students and instructors respect the integrity of one another's work and recognize the importance of acknowledging and safeguarding intellectual property.

There are many different forms of academic dishonesty. The following kinds of honesty violations and their definitions are not meant to be exhaustive. Rather, they are intended to serve as examples of unacceptable academic conduct.

- Plagiarism is taking and presenting as one's own the writings or ideas of others, without citing the source. You should understand the concept of plagiarism and keep it in mind when taking exams and preparing written materials. If you do not understand how to "cite a source" correctly, you must ask for help.
- Cheating is defined as fraud, deceit, or dishonesty in an academic assignment, using or attempting to use materials, or assisting others in using materials that are prohibited or inappropriate in the context of the academic assignment in question.

Anyone caught cheating or plagiarizing will receive a zero (0) on the exam or assignment, and the instructor may report the incident to the Campus Disciplinary Officer, who may place related documentation in a file. Repeated acts of cheating may result in an F in the course and/or disciplinary action. Please refer to the General Catalog for more information on academic dishonesty or other misconduct. Acts of cheating include but are not limited to, the following: (a) plagiarism; (b) copying or attempting to copy from others during an examination or on an assignment; (c) communicating test information with another person during an examination; (d) allowing others to do an assignment or portion of an assignment; (e) using a commercial term paper service.
