In case of any uncertainty regarding the ethical use of AI tools, students are encouraged to contact their instructors for clarification.

### Other Course Information

#### Academic Honesty:

Academic honesty in advancing knowledge requires that all students and instructors respect one another's work's integrity and recognize the importance of acknowledging and safeguarding intellectual property.

There are many different forms of academic dishonesty. The following kinds of honesty violations and their definitions are not meant to be exhaustive. Instead, they are intended to serve as examples of unacceptable academic conduct.

- **Plagiarism** is taking and presenting one's writings or ideas of others without citing the source. You should understand the concept of plagiarism and keep it in mind when taking exams and preparing written materials. If you do not know how to "cite a source" correctly, you must ask for help.
- **Cheating** is fraud, deceit, or dishonesty in an academic assignment, using or attempting to use materials or assisting others in using materials that are prohibited or inappropriate in the context of the academic assignment.

Anyone caught cheating or plagiarizing will receive a zero (0) on the exam or assignment, and the instructor may report the incident to the Campus Disciplinary Officer, who may place related documentation in a file. Repeated cheating may result in an F in the course and/or disciplinary action. Please refer to the General Catalog for more information on academic dishonesty or other misconduct. Acts of cheating include but are not limited to, the following: (a) plagiarism; (b) copying or attempting to copy from others during an examination or on an assignment; (c) communicating test information with another person during an examination; (d) allowing others to do an assignment or portion of an assignment; (e) using a commercial term paper service.
