

Basic Course Information

Semester:	Spring 2026	Instructor Name:	Ricardo Pradis
Course Title & #:	Automotive Air Conditioning AUT-210	Email:	Ricardo.pradis@imperial.edu
CRN #:	20913	Webpage (optional):	
Classroom:	1100	Office #:	1100 Building
Class Dates:	Feb. 17 – June 12	Office Hours:	12:30 – 1:00 pm M-W
Class Days:	Monday and Wednesday	Office Phone #:	760-355-6403
Class Times:	1:00 – 2:05 2:15 – 3:40	Emergency Contact:	760-355-6361 (secretary)
Units:	3.00	Class Format/Modality:	Face-to-Face

Course Description

This course is designed to impart knowledge and information needed by the students to enter and make progress in employment service industry. The use of the charging station and systems will part of A/C course. Upon completion of this course the student will be prepared to take the Automotive Service Excellence (ASE) examination for air conditioning. On productive basis in the automotive air conditioning.

Course Prerequisite(s) and/or Corequisite(s)

None

Student Learning Outcomes

1. Identify and interpret heating and air conditioning concern; determined necessary action.
2. Perform A/C system test; identify A/C system malfunctions.
3. Diagnose A/C system conditions that cause the protection devices to interrupt system operation.

Course Objectives

1. Demonstrate knowledge of personal safety and workshop regulations
2. Demonstrate knowledge of the trade
3. Demonstrate knowledge of basic refrigeration
4. Demonstrate knowledge of temperature control device
5. Demonstrate knowledge of testing and diagnosing equipment.
6. Demonstrate knowledge of component rebuilding
7. Demonstrate knowledge of efficiency testing procedures
8. Analyze problems and practice on various live manufacturers products
9. Demonstrate knowledge of proper recovery and handling of R-12 & R134 with the use of recovery station.
10. Demonstrate knowledge of retrofitting system from R-12-R134
11. be familiar with ASE examination requirements, and prepare to successful pass the exam.

Textbooks & Other Resources or Links

1. Textbook: Modern Automotive Technology 11 Edition ISBN: 979-8-89118-240-0
2. Personal Protective Equipment:
 - Safety glasses, facemask.
 - Work footwear.
 - Proper shirt and pants.

Course Requirements and Instructional Methods

Methods of instructions may include, but are not limited to, the following: lectures, textbook worksheets, hands-on worksheets, internet readings, large and small group discussions, audiovisual aids, and demonstrations.

Out-of-class:

Obtain a junked automotive air conditioning compressor and disassemble it. Identify the type of compressor and the basic parts; then, reassemble the components. Write a report on the process and include component operation.

Reading and Writing:

Visit the library and do research to find out why R-12 and other CFC refrigerants are dangerous to the environment. Write a report on the problem and what is being done to solve it.

Course Grading Based on Course Objectives

Grading Criteria:

1. Grading system:

- A=90%-100% of points= Excellent
- B=80%-89% of points= Good
- C*=70%-79% of points= Satisfactory
- D= 60%-69% of points= Pass, less than satisfactory
- F= Less than 60% of points= Failing

2. Very important:

- Mid-Term (60 points) will be given on April 15.
- Final-Exam (60 points) will be given on June 10.
- There are no make-up exams unless you have a very good reason and make arrangements with the instructor before the exam.
- Final grades can be raised or lowered based on your preparation and participation in class. It benefits you to be engage and participative.

Grades:

	Points
Book worksheets, quizzes.	140
Lab activity, hands-on worksheets.	240
Mid-term	60
Final-exam	60
Total points	500

Course Grade:

The course grade is based on total points accumulated during the semester. There is a total of 500 points available. Grades are determined by dividing the total points you earn by the total points available to get your percentage. (Total points may vary if I change the assignments in a particular week). **Grading of Hands-on**

Assignments:

The most common problem students experience is not being detailed enough in their answers and not spending the right amount of time in the repair procedures. Always be as specific as you can and use examples from your readings. Make sure to answer all parts of the questions. Points will be deducted for inadequate responses. Feedback will be given after each assignment and, hopefully, you will improve as you proceed with the course. The following grading rubric is used when grading assignments.

	Grading Rubric for Hands-on Assignment	Points
A	Focused and clearly organized. Contains critical thinking and content analysis. Convincing evidence is provided to support conclusions. Ideas are clearly communicated. Clearly meets or exceeds assignments requirements.	18-20
B	Generally focused and contain some development of ideas, may be simplistic or repetitive. Evidence is provided which supports conclusions. Meet assignments requirements.	16-17
C	May be somewhat unfocused, underdeveloped, or rumbly. But does have some coherence. Some evidence is provided which support conclusions. Meets minimum assignment requirements.	14-15
D	Unfocused, underdeveloped. Minimal evidence is used to support conclusion. Does not respond appropriately to the assignment.	12-13
F	Minimal effort by the student. Unfocused, underdeveloped. Evidence is not used to support conclusion. Block overall understanding. Does not meet assignment requirements.	0-11

Academic Honesty (Artificial Intelligence -AI)

IVC values critical thinking and communication skills and considers academic integrity essential to learning. Using AI tools as a replacement for your own thinking, writing, or quantitative reasoning goes against both our mission and academic honesty policy and will be considered academic dishonesty, or plagiarism unless you have been instructed to do so by your instructor. In case of any uncertainty regarding the ethical use of AI tools, students are encouraged to reach out to their instructors for clarification.

Accessibility Statement

Imperial Valley College is committed to providing an accessible learning experience for all students, regardless of course modality. Every effort has been made to ensure that this course complies with all state and federal accessibility regulations, including Section 508 of the Rehabilitation Act, the Americans with Disabilities Act (ADA), and Title 5 of the California Code of Regulations. However, if you encounter any content that is not accessible, please contact your instructor or the area dean for assistance. If you have specific accommodations through **DSPS**, contact them for additional assistance.

We are here to support you and ensure that you have equal access to all course materials.

Course Policies

- **Electronic Devices:** Cell phones and electronic devices must be turned off and put away during class, unless otherwise directed by the instructor.
- **Food and Drink** are prohibited in all classrooms. Water bottles with lids/caps are the only exception. Additional restrictions will apply in labs. Please comply as directed by the instructor.
- **Disruptive Students:** Students who disrupt or interfere with a class may be sent out of the room and told to meet with the Campus Disciplinary Officer before returning to continue with coursework. Disciplinary procedures will be followed as outlined in the [General Catalog](#).
- **Children in the classroom:** Due to college rules and state laws, no one who is not enrolled in the class may attend, including children.

Shop/ Lab Area

- Safety test must be passed to work in the shop and complete required lab exercise.
- Safety glasses are required to be worn at all times while in the shop area, safety glasses are the student responsibility (students not wearing safety glasses will be ask to leave the class for that day no exceptions).
- Clean up your area and any other lose debris or trash.
- Wear all required safety protection and comply with posted signs.
- No shorts or open toe foot wear, always be prepared to go into the lab area.
- Comply with tool check out policy and return tools clean.
- Do not perform any work on any vehicle outside the assigned task without permission from your instructor.
- Long hair must be kept in a ponytail or tucked away for safety.

Faculty and Staff:

All students are required to take directions from any faculty, any issues with direction should be brought up to your instructor, however all staff has the right to direct any student at any time. Please respect the staff's decisions.

Safety Requirements:

For every task performed in this course the following safety requirements must be strictly enforced: Comply with personal and environmental safety practices associated with clothing; eye protection; hand tools; power equipment; proper ventilation; and the handling, storage, and disposal of chemicals/materials in accordance with local, state, and federal safety and environmental regulations.

Parking:

No student parking by the building, the only exception is on lab time if your vehicle is a project (instructor approved). Speed limit must be kept at or under 5MPH.
A parking permit is required at all times.

Projects:

All projects are to be taken with the students unless otherwise approve by the instructor.
All projects approved must be removed from campus prior to finals.
All projects must have a written work order (R/O).

Shop Maintenance:

All work will cease 20 minutes prior to the end of class.
All work areas must be cleaned.
Tools must be cleaned and returned to the tool room.

Any broken or missing tools must be reported immediately. Tools are students' responsibility.

Other Course Information

Career possibilities in the automotive industry.

Work-based learning (WBL) allows students to apply classroom content in professional settings while gaining real-world experiences. These opportunities will provide you with a deeper, more engaging and relevant learning environment. This semester, you will be working on workplace simulations through the entire course. Some examples of WBL assignments are job shadowing, informational interviews, and guest speakers.

Office Phone: (760) 355-5721

Email: careerservicescenter@imperial.edu

Hours of Operation:

Monday - Friday; 8:00 a.m. to 5:00 pm

Financial Aid

Your Grades Matter! In order to continue to receive financial aid, you must meet the Satisfactory Academic Progress (SAP) requirement. Making SAP means that you are maintaining a 2.0 GPA, you have successfully completed 67% of your coursework, and you will graduate on time. If you do not maintain SAP, you may lose your financial aid. If you have questions, please contact financial aid at finaid@imperial.edu.

IVC Student Resources

IVC wants you to be successful in all aspects of your education. For help, resources, services, and an explanation of policies, visit <http://www.imperial.edu/studentresources> or click the heart icon in Canvas.

Anticipated Class Schedule/Calendar

Date or Week	Activity, Assignment, and/or Topic	Pages/ Due Dates/Tests
Week 1 Feb 17-20	Syllabus & Introduction Ford Online Training Chapter 5 Shop Safety	Page 25
Week 2 Feb 23-27	Automotive Air Conditioning History and Certifications Lab. HVAC System Inspection	Page 1124
Week 3 March 2-6	Principles of Air Conditioning Lab: Install Gauge Set and Check Pressures	Page 1088
Week 4 March 9-13	Air Conditioning Tools and Equipment Lab: Test condenser Performance	Page 1094
Week 5 March 16-20	Pressure and Temperatures Lab: Check expansion Device Operation	Page 1106
Week 6-7 March 23-27 March 30-April 3	Air Conditioning Components Refrigerants and Lubricants Lab: Evacuate and Recharge an A/C System A/C System Leak Check	Page 1110
Week 8 April 13-17	Mid-Term	Exam
Week 9 April 20-24 Week 10 April 27- May 1	Compressors and Clutches Lab: Bench check an A/C compressor clutch and coil Automotive Heating System Lab. Check heating system and test heater core	Page 1096
Week 11 May 4-8	Basic Electricity Lab: DVOM usage and test A/C clutch circuit	Page 860
Week 12 May 11-15	Electrical Circuits Lab: Test HVAC blower circuit	Page 872
Week 13 May 18-22	Meters and Electrical Testers Lab. Test cooling fan circuit	Page 934

Updated 11/2024

Week 14 May 26-29	Air Conditioning Controls Lab: Test mode door motor, and test body computer controls	Page 1097
Week 15 June 1-5	Troubleshooting and Repair and A/C System Lab: Diagnose, Test, replace A/C parts and components	Page 1105
Week 16 June 8-12	FINAL-EXAM	TEST

*****Subject to change without prior notice*****
