Teaching Strategy:

New vocabulary and class activities are introduced using a "No-Voice" approach (the Functional-Notional Approach). Most of the class will be conducted in "No-Voice". During times of "No-Voice" the class is encouraged to ask for clarification, questions and any comments using sign language, mime and gestures. The instructor needs to know when and what you don't understand so that he can supplement the activity and vocabulary he is trying to introduce. The instructor will decide when to use voice for clarification. Students can lose points for speaking out loud and telling their friends the answer. Please don't be voicing the answers for your friends because you are not helping them out. They need to figure things out for themselves and when the test comes they will not understand because they were relying on someone else to tell them the answer.

Attendance/Tardiness Policy:

Attendance is required. Students who miss class will be deducted 5 points per class. Points will be deducted from students coming late or leaving early from class. After three absences a letter grade will be deducted and if absences

are unexcused the student will be dropped from class.

Makeup work:

Only two class assignments and/or projects can be makeup. The student must make up the work within a week.

Recommended books:

Linguistics of American Sign Language by Clayton Valli and Ceil Lucas Third Edition 2000
