Prerequisites: MATH 91 or equivalent college course with "C" or better, or eligibility determined by placement.

Calculator: A scientific calculator capable of statistical calculations, such as the TI30X-IIS is required. A TI 83/84 is highly recommended and will be used for classroom demonstrations. You may not share calculators during tests. TI 83 plus calculators may be rented from the Math Lab.

Cell Phones: Keep cell phones turned off during class. You may not use a cell phone as a calculator during tests.

Keys to Success:

1. Attitude, Attitude, Attitude
2. Attend Class Regularly
3. Do Your Homework
4. Study

Keeping Up: Don't let yourself fall behind. If you feel you are slipping, **SEE ME**. This is **urgent**. It is my goal and that of the Imperial Valley College Math Dept. that you succeed. Sign up for free tutorial service offered by the **Math Lab room 2500**.

Homework: In mathematics, homework is crucial. Homework is assigned through **MathXL** and done online. See the attached flyer. Please ask questions about the homework in class.

Labs: There will be 4 lab sessions in the Math Lab room 2500. These are not optional. They are part of the course. Skipping labs will directly affect your grade.

Project: There will be a team video project to present a hypothesis test and conclusion. If nobody on your team has a cell phone capable of recording video, let me know and I will find you equipment.

Dropping: You may be dropped from this class if you miss the first day or if you miss three or more class sessions total. The last day to drop this class is July 23. After that date, I must give you a letter grade. It is your responsibility to drop, not mine.
