Course Description

Principles of Macroeconomics: An introduction to economic concepts and the principles of economic analysis. This course will examine the American economy, with emphasis on economic institutions and issues of public policy. Among the topics covered: inflation, unemployment gross domestic product, economic growth and stabilization, money and banking and international trade

Student Learning Outcomes

1. Identify and understand the aggregate supply and demand model and use the model to predict price level, output and employment changes given various shocks to the economy.
2. Show comprehension of both Fiscal and Monetary Policy and illustrate the potential costs and benefits of each policy.
3. Organize and prioritize costs and benefits of a given issue. Write an analysis using the available data.

Course Objectives

1. Identify and evaluate the economic concepts of scarcity and opportunity cost.
2. Use the Production Possibilities Frontier to analyze economic problems.
3. Evaluate the changing role that government plays in the economy.
4. Identify the various types of unemployment and understand the concept of full employment.
5. Understand inflation and the price indexes we use to measure it.
6. Identify Gross Domestic Product and evaluate how well it measures national well-being.
7. Comprehend the importance of economic growth in the economy.
8. Evaluate the effectiveness of fiscal and monetary policy.
9. Understand the vital role money plays in our society.
10. Comprehend banks and the fractional reserve system.
11. Evaluate world trade and understand how nations gain from trade.

Course Requirements

Out of Class Assignments: The Department of Education policy states that one (1) credit hour is the amount of student work that reasonably approximates not less than one hour of class time and two (2) hours of out-of-class time per week over the span of a semester. WASC has adopted a similar requirement.

<u>Points Possible</u>		
Exams (3/4)	45 pts. each	135 pts.
Quizzes (in-class) (2)	10 pts. each	20
Cost/benefit analysis (2)	15 pts. each	30
Online Homework (weekly)	10% of final grade	30
Online Quizzes (weekly)	10% of final grade	30
Final		<u>75</u>
		320 pts

Four exams will be given over the course of the semester. The exam format will be a combination of multiple choice and short essay. You will be allowed to drop your lowest exam score. If you miss an exam, that score will be dropped. There will be no make-up tests offered. The final exam will be mainly essay (a blue book will be required).

Course Grading Based on Course Objectives

<u>Grade Scale</u>	
90-100%	A
80-89%	B
68-79%	C
55-67%	D

Any student that earns an "A" (90% or better) on the final exam will get an "A" for the course, regardless of their grade to date, if and only if, the student has taken all four exams and has turned in their papers on time.

Attendance

- A student who fails to attend the first meeting of a class or does not complete the first mandatory activity of an online class will be dropped by the instructor as of the first official meeting of that class. Should readmission be desired, the student’s status will be the same as that of any other student who desires to add a class. It is the student’s responsibility to drop or officially withdraw from the class. See General Catalog for details.
- Regular attendance in all classes is expected of all students. A student whose continuous, unexcused absences exceed the number of hours the class is scheduled to meet per week may be dropped. For online courses, students who fail to complete required activities for two consecutive weeks may be considered to have excessive absences and may be dropped.
- Absences attributed to the representation of the college at officially approved events (conferences, contests, and field trips) will be counted as ‘excused’ absences.

Classroom Etiquette

- Electronic Devices: Cell phones and electronic devices must be turned off and put away during class unless otherwise directed by the instructor. Cell phone calculators cannot be used on tests.
- Food and Drink are prohibited in all classrooms. Water bottles with lids/caps are the only exception. Additional restrictions will apply in labs. Please comply as directed.
- Disruptive Students: Students who disrupt or interfere with a class may be sent out of the room and told to meet with the Campus Disciplinary Officer before returning to continue with coursework. Disciplinary procedures will be followed as outlined in the General Catalog.
- Children in the classroom: Due to college rules and state laws, no one who is not enrolled in the class may attend, including children.

Academic Honesty

- Plagiarism is to take and present as one's own the writings or ideas of others, without citing the source. You should understand the concept of plagiarism and keep it in mind when taking exams and preparing written materials. If you do not understand how to correctly 'cite a source', you must ask for help.
- Cheating is defined as fraud, deceit, or dishonesty in an academic assignment or using or attempting to use materials, or assisting others in using materials, or assisting others in using materials, which are prohibited or inappropriate in the context of the academic assignment in question. Anyone caught cheating will receive a zero (0) on the exam or assignment and the instructor may report the incident to the Campus Disciplinary Officer, who may place related documentation in a file. Repeated acts of cheating may result in an F in the course and/or disciplinary action. Please refer to the General School Catalog for more information on academic dishonesty or other misconduct. Acts of cheating include, but are not limited to the following:
 - plagiarism
 - copying or attempting to copy from others during an examination or on an assignment;
 - communicating test information with another person during an examination;
 - allowing others to do an assignment or portion of an assignment
 - use of a commercial term paper service

Additional Help

- Blackboard support center: <http://bbcrm.edusupportcenter.com/ics/support/default.asp?deptID=8543>
- Learning Labs: There are several 'labs' on campus to assist you through the use of computers, tutors, or a combination. Please consult your college map for the Math Lab, Reading & Writing Lab, and Learning Services (library). Please speak to the instructor about labs unique to your specific program
- Library Services: There is more to our library than just books. You have access to tutors in the learning center, study rooms for small groups, and online access to a wealth of resources.

Disabled Student Programs and Services (DSPS)

Any student with a documented disability who may need educational accommodations should notify the instructor or the Disabled Student Programs and Services (DSP&S) office as soon as possible. The DSP&S office is located in Building 2100, telephone 760-355-6312 if you feel you need to be evaluated for educational accommodations.

Student Counseling and Health Services

Students have counseling and health services available, provided by the pre-paid Student Health Fee. We now also have a fulltime mental health counselor. For information see <http://www.imperial.edu/students/student-health-center/>. The IVC Student Health Center is located in the Health Science building in Room 2109, telephone 760-355-6310.

Student Rights and Responsibilities

Students have the right to experience a positive learning environment and due process. For further information regarding student rights and responsibilities please refer to the IVC General Catalog available online at http://www.imperial.edu/index.php?option=com_docman&task=doc_download&gid=4516&Itemid=762
