Communicating With Me.

This course uses a “three before me” policy in regards to student to faculty communications. When questions arise during the course of this class, please remember to check these three sources for an answer before asking me to reply to your individual questions:

1. Course syllabus
2. Announcements in Blackboard
3. The “Hallway Conversations” discussion board

This policy will help you in potentially identifying answers before the instructor can get back to you and it also helps your instructor from answering similar questions or concerns multiple times.

If you cannot find an answer to your question, please first post your question to the “Hallway Conversations” discussion board. Here your question can be answered to the benefit of all students by either your fellow students who know the answer to your question or the instructor. You are encouraged to answer questions from other students in the discussion forum when you know the answer to a question in order to help provide timely assistance.

If you have questions of a personal nature such as relating a personal emergency, questioning a grade on an assignment, or something else that needs to be communicated privately, you are welcome to contact the faculty via email. I will usually respond to email 8am to 5pm on weekdays, please allow 24-48 hours for me to respond.

If you have a question about the technology being used in the course, please contact the UTO Help Desk for assistance (contact information is listed below).

Course Description:

This course is designed to introduce you to the main concepts and theories of psychology. This course surveys psychology as both a science and an applied discipline. Topics to be covered include research methods, physiological, developmental, states of consciousness, learning, emotions, stress and health, personality, abnormal and social psychology.

Course Objectives:

The objectives of this course are: **1)** To critically think about and gain knowledge of the main theories and concepts of each sub-field of psychology; and **2)** To leave this course with a basic understanding of psychology, not only in the academic sense, but also an understanding of the everyday or practical nature of psychology.

Course Format:

This course is live with an online component. This course will consist of a combination of lectures, class discussion, assigned readings, videos, group and individual projects and performance on quizzes and exams.

Late or Missed Assignments

All assignments must be finished and turned in to complete the course. Unless the instructor is notified BEFORE the assignment is due and provides an opportunity for the student to submit his/her assignment late, points may be taken off for a late assignment.

Rewrites

Students may submit their assignments ahead of their due date for review by the instructor as long as the assignment is provided a minimum of three days prior to the course due date. The instructor will provide feedback on the assignment for consideration by the student. Additionally, for students who have submitted their assignments on time, the instructor allows for opportunities to revise/resubmit assignments within one week of receiving feedback from the instructor.

Submitting Assignments

All assignments, unless otherwise announced by the instructor, must be submitted via Blackboard (in the Assignments Section). Each assignment will have a designated place to submit the assignment.
