## Course Requirements and Instructional Methods

*[Required Information: This course will consist of a combination of lectures, assigned readings, classroom/group work, individual projects and performance on quizzes and exams.*

*Participation. You will be expected to demonstrate an understanding of the assigned reading by actively participating in class discussions.*

*Research Assignments. You will be provided with and/or asked to conduct a literature search for various research articles that align with the various types of research designs discussed in your textbook. You will be provided with critical thinking questions in which to analyze and evaluate the article. Questions are to be answered in the following format: double-spaced, size 12 font, and 1 inch margins. Each research assignment will be worth 25 points. Late research assignments will be accepted up to one class period of the due date.*

*APA Research Paper Structure. You will produce a draft(s) of each component in an APA style research paper for practice purposes. We will discuss the structure for each section in class and use research articles and/or data to prepare for your final paper. The draft for each section will be worth 10 points. No drafts will be accepted after the Research Paper due date.*

*Research Paper. There will be a research paper due at the end of the semester in which you will work individually or with a partner to demonstrate your ability to design a research project, collect data, and write up the results of the research in the correct APA format. The paper will include a Title Page, an Abstract, an Introduction (literature review) of the research topic, a Method section, a Results section, a Discussion section, and a Reference page. Graphs, charts and figures can also be included. The paper will be worth 100 points. Late research papers will result in a loss of 10 points each day after the due date.*

*Research Presentation. We will have a poster session at the end of the semester. You will present your research study and results on a poster in the classroom. Students and guests will have a chance to read your research and ask questions or make comments. We will go over the procedures for making a poster in class. The poster and presentation will be worth 50 points.*

*Chapter Outlines/Quizzes. For each chapter of your text, unless otherwise noted, you will be asked to produce a typed outline. This outline should include the main points of each chapter. Each class period that we start a new chapter, I will be giving a quiz on that chapter in class. You will be allowed to use your chapter outline while taking the quiz. Thus, it is up to you to produce a detailed outline of the chapter that will assist you in taking the quiz. After you take the quiz, we will grade the quiz in class and I will give you points for both the outline and the quiz. Since I will be throwing out the one lowest score for quizzes, no make-up quizzes will be given. Each outline will be worth 20 points. Each quiz will be worth 20 points.*

*Exams. Four (4) exams will be given. Exams could consist of multiple choice, fill in the blank, short answer and essay questions from the class material. No make-up exams will be given unless you have called me PRIOR to the exam and let me know you will not be able to take the exam. If you contact me prior to the exam, you will have one week to make-up the exam. Each exam will be worth 100 points.*

Out of Class Assignments: The Department of Education policy states that one (1) credit hour is the amount of student work that reasonably approximates not less than one hour of class time and two (2) hours of out-of-class time per week over the span of a semester. WASC has adopted a similar requirement.

## Attendance

*[Required Information: The below information is the IVC attendance policy. Use this information in addition to any specific attendance policies you have for your course.]*

- A student who fails to attend the first meeting of a class or does not complete the first mandatory activity of an online class will be dropped by the instructor as of the first official meeting of that class. Should readmission be desired, the student's status will be the same as that of any other student who desires to add a class. It is the student's responsibility to drop or officially withdraw from the class. See [General Catalog](#) for details.
- Regular attendance in all classes is expected of all students. A student whose continuous, unexcused absences exceed the number of hours the class is scheduled to meet per week may be dropped. For online courses, students who fail to complete required activities for two consecutive weeks may be considered to have excessive absences and may be dropped.
- Absences attributed to the representation of the college at officially approved events (conferences, contests, and field trips) will be counted as 'excused' absences.

## Student Equity Program

### *[Required language.]*

- The Student Equity Program strives to improve Imperial Valley College’s success outcomes, particularly for students who have been historically underrepresented and underserved. The college identifies strategies to monitor and address equity issues, making efforts to mitigate any disproportionate impact on student success and achievement. Our institutional data provides insight surrounding student populations who historically, are not fully represented. Student Equity addresses disparities and/or disproportionate impact in student success across disaggregated student equity groups including gender, ethnicity, disability status, financial need, Veterans, foster youth, homelessness, and formerly incarcerated students. The Student Equity Program provides direct supportive services to empower students experiencing insecurities related to food, housing, transportation, textbooks, and shower access. We recognize that students who struggle meeting their basic needs are also at an academic and economic disadvantage, creating barriers to academic success and wellness. We strive to remove barriers that affect IVC students’ access to education, degree and certificate completion, successful completion of developmental math and English courses, and the ability to transfer to a university. Contact: 760.355.5736 or 760.355.5733 Building 100.
