**Course Description**

This course covers proper installation, inspection, operation, maintenance, and repair of wastewater collection systems. It also provides knowledge as to why collection systems affect treatment facilities and how they have a significant impact on the operation and maintenance costs and effectiveness of these systems. (CSU)

**Student Learning Outcomes**

Upon course completion, the successful student will have acquired new skills, knowledge, and or attitudes as demonstrated by being able to:

- 1.- Identify and properly operate each component of a wastewater collection system. (ILO2, ILO3, ILO4)
- 2.- Describe and understand importance of standard operating procedures within a wastewater collection system. (ILO2, ILO3, ILO4)
- 3.- Describe and correctly restore abnormal conditions in a wastewater collection system. (ILO2, ILO3, ILO4)
- 4.- Identify equipment used during maintenance of wastewater collection system. (ILO4)

**Course Objectives**

Upon satisfactory completion of the course, students will be able to:

1. Demonstrate knowledge of health hazards caused by untreated wastewater flowing down streets and watercourses during stoppages and storms.
2. Understand system failures that result from the lack of proper installation, inspection, preventative maintenance, surveillance, and repair programs designed to protect the public's investment in these facilities.
3. Learn how to prevent odors in collection systems, lift stations, and treatment plants caused by collection system problems.
4. Explain how shock loads from the clearing of stoppages affect wastewater treatment processes.
5. Learn how to prevent corrosion damages to equipment and structures in collection systems and treatment plants.
6. Identify inflow and infiltration, major cause of decrease capacity of treatment facilities.
7. Learn how to prevent noise pollution from collection systems (noisy manhole lids) and lift stations; and learn how to handle.

- The Student Equity Program strives to improve Imperial Valley College's success outcomes, particularly for students who have been historically underrepresented and underserved. The college identifies strategies to monitor and address equity issues, making efforts to mitigate any disproportionate impact on student success and achievement. Our institutional data provides insight surrounding student populations who historically, are not fully represented. Student Equity addresses disparities and/or disproportionate impact in student success across disaggregated student equity groups including gender, ethnicity, disability status, financial need, Veterans, foster youth, homelessness, and formerly incarcerated students. The Student Equity Program provides direct supportive services to empower students experiencing insecurities related to food, housing, transportation, textbooks, and shower access. We recognize that students who struggle meeting their basic needs are also at an academic and economic disadvantage, creating barriers to academic success and wellness. We strive to remove barriers that affect IVC students' access to education, degree and certificate completion, successful completion of developmental math and English courses, and the ability to transfer to a university. Contact: 760.355.5736 or 760.355.5733 Building 100.
