**WARNING:**

If this is your first online course, please understand that this class will not be easier than if you took an on-campus course. You will be earning the same number of units as an on-campus course and you will be required to complete the same amount of work. Specifically, this class will require from 10 to 15 hours of your time each week, including the reading, writing, and online activities required. If you are not prepared to spend the proper amount of time on the course, you might want to rethink taking this course. I am not trying to scare you away, only prepare you for what lay ahead. You will need to be

very disciplined and **keep up on the work because the module assignments will be due on a certain date and you won't be able to submit work after the deadline, and if you get behind, your ability to successfully pass the course will diminish.** In addition, working on your assignments at the last minute will not allow you to do your best work and that will affect your grade.

### **IVC Distance Education Support:**

**CANVAS LMS.** Canvas is Imperial Valley College's main Learning Management System. To log onto Canvas, use this link: [Canvas Student Login](#). The [Canvas Student Guides Site](#) provides a variety of support available to students 24 hours per day. Additionally, a 24/7 Canvas Support Hotline is available for students to use: 877-893-9853. Use this for any help you need with Canvas.

If you want information about your grades or an explanation about an assignment in the class, contact your instructor.

### **Required Textbook**

***Out of Many***, Vol. 1, Brief 6th Edition, John Mack Faragher, et al., 2012  
ISBN 9780205010639

You can purchase or rent your book at the IVC bookstore on campus. Be careful if you go to the campus bookstore that you **pick up the correct volume number of the book.** (We are using **Volume 1**, NOT Volume 2 for this class.) **WARNING: If you order your books online, please do so well in advance of the start of school. You cannot afford to wait for your books. If you are waiting for your books, you can go to the IVC library and read the books there, just ask for Wainwright reserves for History 120 at the front desk.** Late assignments will not be accepted just because you couldn't get your books.

## **Course Requirements & Format**

### **Modules**

This class is divided into **14 modules**. Each module contains various activities and tasks. All of the modules will be accessible from the Course Menu under "**Modules.**" See the **Course Schedule for the tasks required, and the due dates.** You must start each module by reading the material contained in the Modules, especially the lectures.

**Assignments, discussions, and quizzes are due on the due date of the module and you do not want to get behind or miss very many of these tasks.** You will still be able to see the information in the modules throughout the session for review. This strict schedule is necessary to keep you on track in the course. Students who get behind in their coursework often end up failing the course as a result. **There is no make-up work or extra credit available in this course.**

## READING ASSIGNMENTS:

1. ***Out of Many***, John Mack Faragher, et al., Vol. 1, Brief Sixth Edition, 2012  
(This textbook will be referred to as ***Out of Many*** in the modules & course schedule.)  
This is your basic textbook for the course and contains all the information, names, dates, description of events, etc. The multiple-choice questions contained in both the quizzes and the exams will come straight out of this book, so read it carefully.
2. Additional Readings, including primary source documents and articles of interest are required and located in the appropriate module in Canvas. (Most documents are in Adobe Acrobat format, so you will need to download the Adobe Acrobat Reader to your computer to open these readings.)

### Class Resources:

Click the Modules menu link in Canvas to find Class Resources: Instructor Contact Information, Grading Rubrics for Assignments and Discussions, Exam Study Guides, and Chapter Study Guides and Lecture Outlines.

Each **Study Guide and Lecture Outline** contains focus questions, key terms you should learn from your reading, and outlines of each of the ***Out of Many*** chapters to help you focus on the important issues. Using the study guides and lecture outlines will increase the efficiency of your reading and hopefully improve your performance on the exams. **The Lecture Outlines in Class Resources contain the same information as the PowerPoint Presentations in the Modules, but contain only text without the pictures and images, so you do not have to review both of these. Pick the version that best fits your needs.**

### Written Assignments

There is a total of eight written assignments contained throughout the modules. These assignments focus on the most important issues in each module. Each assignment will be worth 20 points except the first assignment. It is the **quality** of what you write versus the quantity that will be graded but each assignment must be as long as necessary to answer all the question(s) asked. These questions will appear in the module with lecture material. The best way to proceed through the modules is to **start with reading the Lecture materials contained in the Module folder** before reading your textbook and know what questions you have to answer so that you can be looking for material to answer the questions while you are reading the textbook, documents, etc. Then complete the assignment. **The questions asked in Assignments cannot be answered by looking at one paragraph or even one page in the book. You should also use the lecture in the module, the other assigned readings and the PowerPoint presentation or the lecture outline in Class Resources** to make sure you have all of the answer. Sometimes, the information necessary to answer the question is not all in the textbook.

### **Course Grading Based on Course Objectives:**

In my experience, the most common problem students experience is not being detailed enough in their answers. Always be as specific as you can and use examples from your readings. Make sure to answer all parts of the question. If you use material from outside sources (like websites), make sure to cite your source in your assignment response. **All assignment questions should be primarily answered using your textbook first, as well as the PowerPoints and module lectures and primary source documents. You will lose points if you only use websites for information.** Points will be deducted for inadequate responses. **I have included a grading rubric for assignments in Class Resources. Please use this as a guide to how assignments will be graded.**

**I will give you feedback on these assignments when I grade them,** so make sure to review my comments and hopefully you will improve your writing as you proceed through the course.

Click on the Assignment in the Module, then click "Submit Assignment" button in upper righthand corner. Please type directly in the text box after clicking the "text entry" tab, or upload a file by clicking "File Upload." Only certain types of document formats will be accepted. It is recommended that you type all your assignments in a word processing program, save them on your computer, and then copy and paste into Canvas. By keeping a copy on your own computer, you can always prove that you did it and resubmit if there is some technical problem.

**Your Assignment will be completed only when you click on the "Submit Assignment" button at the bottom of the box. If for some reason you are having a problem submitting your assignment through the Canvas assignment tool, you can send it to me by email by the due date. (Only do this in an emergency.)**

### **Discussions:**

There are twelve (12) discussions required in this course. All class discussions will be worth 10 or 15 points each. 15-point discussions require more writing than 10-point discussions. Discussions will center around a question posed by your instructor in the module and is related to the readings. These questions will primarily ask for your opinion and there will not be a "right or wrong" answer.

Your discussion response will be graded on whether it is a well thought out response, that it is clear from your response that you did the reading, and that your opinion is based on evidence from your readings. Don't try to respond to a discussion question if you haven't done the reading, because it will be very obvious and you will not get credit for that discussion. A "good" sentence is longer than a few words and actually says something that answers the question. Make sure to answer all questions in the discussion or you will lose points. A grading rubric for Discussions is also posted in Class Resources.

Except for Module 1, you will have to post a discussion response before you will be able to read other student responses. Although you shouldn't necessarily trust what another student says, reading other student responses can help expand your knowledge.

You will be writing throughout this class, either through the assignments or in group discussions. You should take care to present polished work. This includes checking your spelling and grammar. (You must proofread because Spell Check cannot catch many different types of errors.) If your assignments contain a lot of grammar and spelling mistakes or I can't understand what you are trying to say, I will deduct points.

### **Late Assignments:**

All tasks for each module are to be completed and submitted by the due date indicated for that module. **Late written assignments or discussions will be accepted for one day following the due date, but will lose 5 points. The Quizzes must be completed on time because you won't be able to access these after the due date.** No exceptions will be made on these deadlines, unless you contact me and have a very good, documented reason for needing more time. Don't be late too often because it will hurt your grade.

### **Grading Criteria:**

**Total points for the course is 565 points.** There is no extra credit available in this course, so don't ask. You need at least 393 points to pass the course.

**Assignments = 150 points** (Each assignment is worth **20 points**, except the first assignment which is worth only 10 points/8 written assignments)

**Discussions = 135 points** (Each discussion is worth **10 or 15 points/12 discussions**)

**Quizzes = 180 points** (Each module contains a multiple-choice quiz (10 or 20 questions each). These quizzes are intended to help you review the material. **No late quizzes allowed.** You have two attempts on each quiz, but only the highest score will be used in your class grade. I **do not give you the answers** to the quizzes because they are **open book** quizzes, so study the questions carefully. If you want to ask me about a specific question that you are having trouble with, please ask. Don't forget to click the "finish" button when you are done with the quiz, or it will not be graded.

**Mid Term Exam Online = 30 points – Due January 18 by 11:59 p.m.**

**Final Exam Online = 70 points – Due February 2 by 11:59 p.m.**

**Study guides for the Mid-Term and Final Exams will be provided in Class Resources, the week before the exams, but you can also use the Study Guides provided for each chapter to start preparing for the exam.** The exams will consist of multiple-choice questions.

**Course Grade:** The course grade is based on total points accumulated during the semester. Grades are determined by dividing the total points you earn by the total points available to get your percentage. You can keep track of your grade by clicking on the "Grades" menu in Canvas. It is also a good idea to keep track of your own grades outside Canvas and let me know if you find any discrepancies in "Grades." If you want to verify your point total at any time during the course, please email me. I keep a hard copy of all grades in Excel. Final grade is based on the following percentages:

**90-100% = A, 80-89% = B, 70-79% = C, 60-69% = D, below 60% = F**

## **ATTENDANCE RULES AND WITHDRAWAL FROM THE CLASS:**

A student who fails to complete all of the first tasks (Module 1) of an online class will be dropped by the instructor. Should readmission be desired, the student's status will be the same as that of any other student who desires to add a class. It is the student's responsibility to drop or officially withdraw from the class. See the IVC [General Catalog](#) for details.

Regular attendance in all classes is expected of all students. Students who fail to complete all required activities for two consecutive modules may be dropped. **You must be an active participant in the class. You cannot just take quizzes. You must do the written assignments to be considered active in the class.**

**The last day to drop the course with a "W" is January 25, 2018.**

## **Online Netiquette**

Netiquette, as you probably know, is a combination of the words "network" and "etiquette." Basically, it describes things you should and shouldn't do while communicating with other people online. This is especially important in an online classroom environment. Here are some examples: (1) identify yourself, (2) include a subject line, (3) avoid sarcasm, (4) respect others' opinions and privacy, (5) acknowledge and return messages promptly, (6) copy with caution, (7) do not spam or junk mail, (8) be concise, (9) use appropriate language, no profanity, (10) use appropriate emoticons (emotional icons) to help convey meaning, and (11) use appropriate intensifiers to help convey meaning [do not use ALL CAPS or multiple exclamation marks (!!!)], Don't forget to Capitalize proper nouns, titles, etc.

Overall, please be courteous to me and to your classmates. Working within a safe, friendly learning environment will be beneficial to everyone. If you see postings that are inappropriate, please bring them to my attention, and I will deal with the situation.

## Academic Honesty:

Academic honesty in the advancement of knowledge requires that all students and instructors respect the integrity of one another's work and recognize the importance of acknowledging and safeguarding intellectual property.

There are many different forms of academic dishonesty. The following kinds of honesty violations and their definitions are not meant to be exhaustive. Rather, they are intended to serve as examples of unacceptable academic conduct.

**Plagiarism** is taking and presenting as one's own, the writings or ideas of others, without citing the source. This includes copying and pasting from any source on the Internet. You should understand the concept of plagiarism and keep it in mind when taking exams and preparing written materials. If you do not understand how to correctly "cite a source," you must ask for help.

**Cheating** is defined as fraud, deceit, or dishonesty in an academic assignment or using or attempting to use materials, or assisting others in using materials that are prohibited or inappropriate in the context of the academic assignment in question. Acts of cheating include, but are not limited to the following:

- plagiarism;
- copying or attempting to copy from others during an examination or on an assignment;
- communicating test information with another person during an examination;
- allowing others to do an assignment or portion of an assignment; and
- use of a commercial term paper service.

**Anyone whom I determine to have cheated will receive a zero (0) score on the exam or assignment (no make-up on that assignment will be allowed) and the instructor may report the incident to the Campus Disciplinary Officer, who may place related documentation in a file. Repeated acts of cheating may result in an "F" in the course and/or disciplinary action. Please refer to the IVC [General Catalog](#) for more information on academic dishonesty or other misconduct.**
