Course Description

Lecture and supervised individual and group procedural activity designed to acquaint students with progressive filing and records management rules, procedures, and techniques. Alphabetic, numeric, geographic, and subject filing are studied. Microsoft Access is used extensively. (CSU)

Student Learning Outcomes

Upon course completion, the successful student will have acquired new skills, knowledge, and or attitudes as demonstrated by being able to:

1. Code proper names and business names according to alphabetic filing rules. (ILO2, ILO3, ILO4, ILO5)
2. Identify and create cross-referencing for proper names and business names. (ILO2, ILO3, ILO4, ILO5)

Course Objectives

Upon satisfactory completion of the course, students will be able to:

1. Identify records storage equipment/supplies, demonstrate ability to apply rules of filing alphabetically using cards and correspondence, and explain transfer methods.
2. Demonstrate ability to file by subject, number, and location using cards and correspondence.
3. Explain the basic records management principles and demonstrate knowledge of planning, developing and controlling a filing program.

Work-based Learning

Work-based learning (WBL) allows students to apply classroom content in professional settings while gaining real-world experiences. These opportunities will provide you with a deeper, more engaging and relevant learning environment. This semester, I will be offering the following WBL activities in order to provide you with the opportunity to explore career options in Computer Information Systems.

Course Policies

Attendance

A student who fails to attend the first meeting of a class or does not complete the first mandatory activity of an online class will be dropped by the instructor as of the first official meeting of that class.

It is the student's responsibility to drop or officially withdraw from the class. See [General Catalog](#) for details.

Academic Honesty

Academic honesty in the advancement of knowledge requires that all students and instructors respect the integrity of one another's work and recognize the important of acknowledging and safeguarding intellectual property.

There are many different forms of academic dishonesty. The following kinds of honesty violations and their definitions are not meant to be exhaustive. Rather, they are intended to serve as examples of unacceptable academic conduct.

- Plagiarism is taking and presenting as one's own the writings or ideas of others, without citing the source. You should understand the concept of plagiarism and keep it in mind when taking exams and preparing written materials. If you do not understand how to "cite a source" correctly, you must ask for help.
- Cheating is defined as fraud, deceit, or dishonesty in an academic assignment, or using or attempting to use materials, or assisting others in using materials that are prohibited or inappropriate in the context of the academic assignment in question.

Anyone caught cheating or plagiarizing will receive a zero (0) on the exam or assignment, and the instructor may report the incident to the Campus Disciplinary Officer, who may place related documentation in a file. Repeated acts of cheating may result in an F in the course and/or disciplinary action. Please refer to the [General Catalog](#) for more information on academic dishonesty or other misconduct. Acts of cheating include, but are not limited to, the following: (a) plagiarism; (b) copying or attempting to copy from others during an examination or on an assignment; (c) communicating test information with another person during an examination; (d) allowing others to do an assignment or portion of an assignment; (e) using a commercial term paper service.
