

Basic Course Information

Semester:	Fall 2022	Instructor Name:	Dr. Alejandro Cozzani
Course Title & #:	Physics 200	Email:	alex.cozzani@imperial.edu
CRN #:	10820	Webpage (optional):	Refer to Canvas
Classroom:	Online	Office #:	2767
Class Dates:	August 15-December 10, 2022 Last Day to Add: 08/27/22 Drop Deadline with W: 11/05/22	Office Hours:	Monday-Wednesday 10:45-11:15 AM and 3:15-3:45 PM Tuesday-Thursday 10:00-11:00 AM (online) or by appointment
Class Days:	Asynchronous Class (no Zoom meetings)	Office Phone #:	760-355-5720
Class Times:	N/A	Emergency Contact:	Silvia Murray 760-355-6201
Units:	4.0 (3.0 Lecture/1.0 Lab)	Class Format:	Online Asynchronous Class (no Zoom meetings)

Course Description

This course is designed to give an understanding of the fundamental principles of physics in the area of Mechanics.

Course Prerequisite(s) and/or Corequisite(s)

MATH 192 with a grade of "C" or better or concurrent enrollment in MATH 192.

Student Learning Outcomes

1. Solve one-dimensional and two-dimensional motion problems involving position, velocity, and acceleration. (ILO 1, ILO 2).
2. Solve problems (using algebra, calculus, and trigonometry as tools) involving Newton's Laws and their applications including friction. (ILO 1, ILO 2).
3. Solve problems involving work, power, and conservation of energy and momentum. (ILO 1, ILO 2).

Course Objectives

1. The student will solve problems involving SI units, scientific notation, dimensional analysis, and calculations to the proper number of significant digits.
2. The student will solve problems involving vectors, scalars, frames of reference, components of a vector, and unit vectors.
3. The student will solve one-dimensional motion problems involving position, velocity, and acceleration.
4. The student will solve problems involving two-dimensional motion with vector applications.
5. The student will solve problems involving Newton's Laws and their applications including friction.
6. The student will solve problems involving circular motion, accelerated frames of reference, and motion in the presence of resistive forces.
7. The student will solve problems involving work, energy, and power.
8. The student will solve problems involving potential and kinetic energies and conservation of energy.
9. The student will solve problems involving impulse, momentum, and center of mass.
10. The student will solve problems involving rotation about a fixed axis of a rigid body.
11. The student will solve problems involving angular momentum and torque as vector quantities.
12. The student will solve problems involving static equilibrium of a rigid body.
13. The student will solve problems involving simple harmonic motion, damped, and forced oscillations.

14. The student will solve problems involving the law of universal gravitation, Kepler's Laws of planetary motion, and gravitational potential energy.
15. The student will solve problems involving the mechanics of solids and fluids.

Textbooks & Other Resources or Links

Textbooks (either one):

- a. Fundamental of Physics, 10th edition, Chapters 1-15, ISBN: 978-1-118-23072-5 (Wiley).
 - i. Halliday/Resnick/Walker.
- b. Physics for Scientists and Engineers, 4th edition, Chapters 1-14, ISBN: 978-13-149508-1 (Pearson).
 - i. Giancoli, Douglas C.
- c. University Physics, Volume I (Openstax.org). Free OER
 - i. William Moebs, Samuel J. Ling, and Jeff Sanny.

Course Requirements and Instructional Methods

1. Homework: The purpose of homework is to provide the student with sufficient practice to master all topics studied in class and to do well on tests. Homework is done online at: <https://www.pearsonmylabandmastering.com/northamerica/>

Course ID: cozzani17932

- *Enrollment dates: 8/15/22-11/30/22. You will not be able to sign up for HW after this date! Please refer to webpage for details.*
- *All assignments close on 12/03/22 at 8:59 PM. After this date, the course will be expired, and it cannot be open.*
- *The dynamic study modules are part of the HW so you are expected to answer them.*

You need to satisfactorily complete at least an overall 80% to get full credit, otherwise your earned percentage will be converted to points (i.e., 80%=100 points, 72%=72 points).

It is extremely important that you use the same first and last name as in the IVC roster otherwise you may not get credit for HW. You cannot share/use other's person's account to do the HW. No exceptions!

It is extremely important that you use the same first and last name as in the IVC roster otherwise you may not get credit for HW.

2. **Out of Class Assignments:** The Department of Education policy states that one (1) credit hour is the amount of student work that reasonably approximates not less than one hour of class time and two (2) hours of out-of-class time per week over the span of a semester. WASC has adopted a similar requirement.
3. **Lab Experiments and Reports:** they have been replaced by computer simulations and labs by Labster done via Canvas (pay attention to deadlines).
4. **Lecture:** You need to read the chapters or modules because there are assignments aligned to your readings (you can use any textbook of your choice). Pre-recorded lectures are available for each module.
5. **Online Discussions:** As part of the course requirements, you need to answer the online discussions found in Canvas, under the "Discussions" tab.
6. **Online Quizzes:** At the end of each chapter, you will take a quiz to check your knowledge. Please refer to specific instructions under the "Quizzes" tab in Canvas.
7. **Tests or Exams:** They may be T/F, multiple choice, open-ended, and free response questions (also, done in Canvas).

8. **Questions:** will be submitted via Canvas under "Assignments." Please pay attention to deadlines.
9. **Problems:** will be submitted via Canvas under "Assignments." Please pay attention to deadlines.
10. **Mid-term:** It may include questions from the first exam (recycled questions) and new questions (you have not seen them before but with similar level of difficulty). No makeup! (Done in Canvas).
11. **Final Exam:** It may include questions from the tests (recycled questions) and new questions (you have not seen them before but with similar level of difficulty). The MC section will include ALL chapters. No makeup! (Done in Canvas).
12. Students will not be allowed to make up any exam or assignment unless they have a powerful reason (e.g., hospitalization) and send the corresponding paperwork as evidence; it is students' responsibility to notify the instructor via e-mail to make arrangements.

Course Grading Based on Course Objectives

The student's grade will depend on the following areas (not on total points):

➤ Homework (Pearson)	15%
➤ Problems/Questions	10%
➤ Discussions / Quizzes	15%
➤ Exams (2)	20%
➤ Simulations / Labs	15%
➤ Mid-term / Final Exam	25%
➤ TOTAL	100%

All grades are calculated by using the standard scale of:

A = 100-90% **B = 89-80%** **C = 79-70%** D = 69-60% F = 59% and below

- All grades are displayed in Canvas.

Course Policies

ATTENDANCE

- A student who fails to attend the first meeting of a class or does not complete the first mandatory activity of an online class will be dropped by the instructor as of the first official meeting of that class. Should readmission be desired, the student's status will be the same as that of any other student who desires to add a class. It is the student's responsibility to drop or officially withdraw from the class. See [General Catalog](#) for details.
- Regular attendance in all classes is expected of all students. A student whose continuous, unexcused absence exceed the number of hours the class is scheduled to meet per week may be dropped. For online courses, students who fail to complete required activities for two consecutive weeks may be considered to have excessive absences and may be dropped.
- Absences attributed to the representation of the college at officially approved events (conferences, contests, and field trips) will be counted as 'excused' absences.

CLASSROOM ETIQUETTE

- Electronic Devices: Cell phones and electronic devices must be turned off and put away during class, unless otherwise directed by the instructor.
- Food and Drink are prohibited in all classrooms. Water bottles with lids/caps are the only exception. Additional restrictions will apply in labs. Please comply as directed by the instructor.
- Disruptive Students: Students who disrupt or interfere with a class may be sent out of the room and told to meet with the Campus Disciplinary Officer before returning to continue with coursework. Disciplinary procedures will be followed as outlined in the [General Catalog](#).

- Children in the classroom: Due to college rules and state laws, no one who is not enrolled in the class may attend, including children.

ONLINE NETIQUETTE

- What is netiquette? Netiquette is internet manners, online etiquette, and digital etiquette all rolled into one word. Basically, netiquette is a set of rules for behaving properly online.
- Students are to comply with the following rules of netiquette: (1) identify yourself, (2) include a subject line, (3) avoid sarcasm, (4) respect others' opinions and privacy, (5) acknowledge and return messages promptly, (6) copy with caution, (7) do not spam or junk mail, (8) be concise, (9) use appropriate language, (10) use appropriate emoticons (emotional icons) to help convey meaning, and (11) use appropriate intensifiers to help convey meaning [do not use ALL CAPS or multiple exclamation marks (!!!!)].

ACADEMIC HONESTY

Academic honesty in the advancement of knowledge requires that all students and instructors respect the integrity of one another's work and recognize the important of acknowledging and safeguarding intellectual property.

There are many different forms of academic dishonesty. The following kinds of honesty violations and their definitions are not meant to be exhaustive. Rather, they are intended to serve as examples of unacceptable academic conduct.

PLAGIARISM

- Plagiarism is taking and presenting as one's own the writings or ideas of others, without citing the source. You should understand the concept of plagiarism and keep it in mind when taking exams and preparing written materials. If you do not understand how to "cite a source" correctly, you must ask for help.
- Cheating is defined as fraud, deceit, or dishonesty in an academic assignment, or using or attempting to use materials, or assisting others in using materials that are prohibited or inappropriate in the context of the academic assignment in question.

Anyone caught cheating or plagiarizing will receive a zero (0) on the exam or assignment, and the instructor may report the incident to the Campus Disciplinary Officer, who may place related documentation in a file. Repeated acts of cheating may result in an F in the course and/or disciplinary action. Please refer to the [General Catalog](#) for more information on academic dishonesty or other misconduct. Acts of cheating include, but are not limited to, the following: (a) plagiarism; (b) copying or attempting to copy from others during an examination or on an assignment; (c) communicating test information with another person during an examination; (d) allowing others to do an assignment or portion of an assignment; (e) using a commercial term paper service.

Other Course Information

Imperial Valley College offers various services in support of student success. The following are some of the services available for students. Please speak to your instructor about additional services which may be available.

- **CANVAS LMS.** Canvas is Imperial Valley College's main Learning Management System. To log onto Canvas, use this link: [Canvas Student Login](#). The [Canvas Student Guides Site](#) provides a variety of support available to students 24 hours per day. Additionally, a 24/7 Canvas Support Hotline is available for students to use: 877-893-9853.
- **Learning Services.** There are several learning labs on campus to assist students through the use of computers and tutors. Please consult your [Campus Map](#) for the [Math Lab](#); [Reading, Writing & Language Labs](#); and the [Study Skills Center](#).
- **Library Services.** There is more to our library than just books. You have access to tutors in the [Study Skills Center](#), study rooms for small groups, and online access to a wealth of resources.
- **CANVAS LMS.** Canvas is Imperial Valley College's Learning Management System. To log onto Canvas, use this link: [Canvas Student Login](#). The [Canvas Student Guides Site](#) provides a variety of support available to students 24 hours per day. Additionally, a 24/7 Canvas Support Hotline is available for students to use: 877-893-9853.
- Any student with a documented disability who may need educational accommodations should notify the instructor or the [Disabled Student Programs and Services](#) (DSP&S) office as soon as possible. The DSP&S office is located in Building 2100, telephone 760-355-6313. Please contact them if you feel you need to be evaluated for educational accommodations.

IVC Student Resources

IVC wants you to be successful in all aspects of your education. For help, resources, services, and an explanation of policies, visit <http://www.imperial.edu/studentresources> or click the heart icon in Canvas.

Anticipated Class Schedule/Calendar

*****Subject to change without prior notice*****

WEEK OF	ACTIVITY, ASSIGNMENT, TOPIC	READING	ASSIGNMENT DUE
1-August 15	Syllabus / HW/Canvas Module 0: Meet and Greet MODULE 1: Measurement	Read Content Module 0 Read Content Module 1	<i>Refer to Canvas and Mastering Physics for due dates</i>
2- August 22	MODULE 2: Vectors	Read Content Module 2	<i>Refer to Canvas and Mastering Physics for due dates</i>
3 – August 29	MODULE 3: Motion in One Dimension	Read Content Module 3	<i>Refer to Canvas and Mastering Physics for due dates</i>
4- September 05 Holiday Monday 9/05/22	MODULE 4: Motion in Two Dimensions	Read Content Module 4	<i>Refer to Canvas and Mastering Physics for due dates</i>
5- September 12	Exam # 1 (Modules 2-3-4) MODULE 5: Newton’s Laws of Motion	Read Content Module 5	Done in Canvas <i>Refer to Canvas and Mastering Physics for due dates</i>
6- September 19	MODULE 6: Applications of Newton’s Laws of Motion	Read Content Module 6	<i>Refer to Canvas and Mastering Physics for due dates</i>
7- September 26	MODULE 7: Kinetic Energy and Work	Read Content Module 7	<i>Refer to Canvas and Mastering Physics for due dates</i>
8- October 03	Mid-term (Modules 2-7)		Done in Canvas
9- October 10	MODULE 8: Potential Energy and Conservation of Energy	Read Content Module 8	<i>Refer to Canvas and Mastering Physics for due dates</i>
10-October 17	MODULE 9: Center of Mass and Linear Momentum	Read Content Module 9	<i>Refer to Canvas and Mastering Physics for due dates</i>
11- October 24	MODULE 10: Rotation	Read Content Module 10	<i>Refer to Canvas and Mastering Physics for due dates</i>
12- October 31	MODULE 11: Rolling, Torque, and Angular Momentum	Read Content Module 11	<i>Refer to Canvas and Mastering Physics for due dates</i>
13- November 07	MODULE 12: Fluids	Read Content Module 12	<i>Refer to Canvas and Mastering Physics for due dates</i>
14-November 14	Exam # 2 (Modules 8-9-10-11) MODULE 13: Gravitation	Read Content Module 13	Done in Canvas <i>Refer to Canvas and Mastering Physics for due dates</i>

Course Syllabus - Physics 200 - Fall 2022

November 21	Thanksgiving Break	No Class	
15- November 28	MODULE 14: Oscillations	Read Content Module 14	<i>Refer to Canvas and Mastering Physics for due dates</i>
16-December 05	Final Exam (All Modules)		Done in Canvas

Mastering Physics - Student Registration Instructions

To register for Physics 200 CRN 10820 Fall 2022:

1. Go to <https://mlm.pearson.com/enrollment/cozzani17932>
2. Sign in with your Pearson student account or create your account.
3. Select any available access option, if asked.
 - a. Enter a prepaid access code that came with your textbook or from the bookstore.
 - b. Buy instant access using a credit card or PayPal.
 - c. Select Get temporary access without payment for 14 days.
4. Select Go to my course.
5. Select Physics 200 CRN 10820 Fall 2022 from My Courses.

If you contact Pearson Support, give them the course ID: **cozzani17932**

To sign in later:

1. Go to <https://mlm.pearson.com>
2. Sign in with the same Pearson account you used before.
3. Select Physics 200 CRN 10820 Fall 2022 from My Courses.
