Course Description

Lecture and laboratory course designed to study the fundamental principles of the human body structure at the cellular, tissue, organ, and systems level of organization, including the cat and organ dissection, study of the human skeleton, structural-functional relationships, and appreciation of related human diseases and aging. (CSU) (UC credit limited.)

Course Prerequisite(s) and/or Corequisite(s)

Completion of MATH 090 and BIOL 100 or BIOL 122 or BIOL 180 or BIOL 182, with grades of “C” or better. Or, completion of MATH 090 with a grade of “C” or better AND current California LVN or RN license.

Student Learning Outcomes

Upon course completion, the successful student will have acquired new skills, knowledge, and or attitudes as demonstrated by being able to:

1. Display critical thought and competency in communicating information related to topics in human anatomy. (ILO1, ILO2, ILO4)
2. Display knowledge of anatomy and dissection competency using mammal and/or human cadaver specimens as subjects. (ILO1, ILO4)

Course Objectives

Details available on CurricUNET <http://www.curricunet.com/Imperial/>

- The student will be able to identify and describe the main structures of cells and tissues.
- The student will be able to identify and describe the main structures of human organ systems.

Textbook

Human Anatomy Lab Manual, customized. Available at the bookstore only.

Course Requirements and Instructional Methods

This online course incorporates PowerPoints, quizzes, lab practicals, videos, labs, and misc. activities related to the understanding of the human body.

Course Grading Based on Course Objectives

Final grades are calculated using a simple point system. If your practical average is $\geq 70.0\%$, your grade will be based on the total points you earn divided by the total points possible. If your practical average is $< 70\%$, you do not pass the course. The grading scale will be:

A $\geq 90\%$ B = 80-89% C = 70-79% D = 60-69% F $\leq 59\%$

- ◆ Quizzes: 40 pts. each
- ◆ Lab practicals: 60 pts. each
- ◆ Lab worksheet: 10-20 pts each
- ◆ Misc. assignments: 10-15 pts each
