## Course Description

*"Neither the life of an individual nor the history of a society can be understood without understanding both"*  
– C. Wright Mills

This course is designed to introduce you the main sociological theories and perspectives regarding various social problems facing the world today. This course examines various social problems from both a scientific viewpoint regarding why we have social problems and also from an applied viewpoint regarding how social problems affect humans in society. Topics include physical and mental health, alcohol and drug problems, crime, violence, poverty, racism, prejudice and discrimination, sex roles and inequality, the changing family, education problems, and work and economy problems.

## Course Prerequisite(s) and/or Corequisite(s)

No prerequisites/corequisites

## Student Learning Outcomes

Each of the following outcomes should be achieved during the time you are in this class. The goal is for you to grow in your communication skills, critical thinking skills, personal responsibility, information literacy and global awareness.

1. Define and apply the basic concepts of sociology including culture, status, roles, norms, institutions, social class, race, gender. (ILO2, ILO3, ILO4, ILO5)
2. Distinguish different major sociological theoretical perspectives that explain social behavior. (ILO2, ILO4, ILO5)
3. Read, summarize and evaluate peer-reviewed empirical studies. (ILO1, ILO2, ILO3, ILO4)
4. Demonstrate the ability to make oral presentations that are organized, rely on evidence and engage the audience. (ILO1, ILO2, ILO4)

## Course Objectives

1. To critically think about and gain knowledge of the main theories and concepts of each of the various social problems that affect the world today
2. To leave this course with a basic understanding of how contemporary social problems affect our daily lives

## Course Requirements and Instructional Methods

We will meet for class twice weekly on Zoom Tuesdays and Thursdays at 11:20 am. If there are any changes to this schedule or to the modality of the class, you will be informed through Canvas. The meeting link is posted below and can also be used for office hours. We will also have weekly online assignments which will count as part of your participation grade. These assignments will each refer to some aspect of the chapter they are covering, and are designed to help you apply the concepts to social life in our society and culture.

Exams are multiple choice/true-false and are to be taken on Canvas on specified dates. If you know you are going to be unable to take an exam on its scheduled date, please notify the professor **one week before** to make arrangements or as soon as possible. This must be done before the test day. If you miss the exam day without making arrangements, there will be no make-ups.

The Sociology Project is a project that is completed during the second half of the semester. Details about the project are located on the last page of the syllabus.

Out of Class Assignments: The Department of Education policy states that one (1) credit hour is the amount of student work that reasonably approximates not less than one hour of class time and two (2) hours of out-of-class time per week over the span of a semester. WASC has adopted a similar requirement.

Laura Semmes is inviting you to a scheduled Zoom meeting.

## Course Policies

### **Attendance:**

- A student who fails to attend the first meeting of a class or does not complete the first mandatory activity of an online class will be dropped by the instructor as of the first official meeting of that class. Should readmission be desired, the student's status will be the same as that of any other student who desires to add a class. It is the student's responsibility to drop or officially withdraw from the class. See [General Catalog](#) for details.
- Regular attendance in all classes is expected of all students. A student whose continuous, unexcused absences exceed the number of hours the class is scheduled to meet per week may be dropped. For online courses, students who fail to complete required activities for two consecutive weeks may be considered to have excessive absences and may be dropped.
- Absences attributed to the representation of the college at officially approved events (conferences, contests, and field trips) will be counted as 'excused' absences.

Please make arrangements with the instructor or a fellow student to keep up with all assignments in case you cannot attend a class session for any reason. Please notify me if you cannot attend class for any reason. Lecture notes can be found on Canvas. If you need any assistance with this, please ask me **anytime**. I will also put study guides on Canvas a week before the test is scheduled.

Participation is part of your grade, and you must be in class to participate.

IMPERIAL VALLEY COLLEGE

**Please check your e-mail and Canvas regularly** so you are informed of any changes to the class, for example if the instructor will be unable to make it to class. This will help you stay informed about the status of the class.

Please note that participation means being fully engaged in class discussion. This means you are listening attentively, involving yourself in class activities and discussion, and most importantly, not disrupting your fellow students.

Participation points WILL BE taken away from you each time you disrupt class in any way.

### **Academic Honesty:**

Academic honesty in the advancement of knowledge requires that all students and instructors respect the integrity of one another's work and recognize the importance of acknowledging and safeguarding intellectual property.

There are many different forms of academic dishonesty. The following kinds of honesty violations and their definitions are not meant to be exhaustive. Rather, they are intended to serve as examples of unacceptable academic conduct.

- Plagiarism is taking and presenting as one's own the writings or ideas of others, without citing the source. You should understand the concept of plagiarism and keep it in mind when taking exams and preparing written materials. If you do not understand how to "cite a source" correctly, you must ask for help.
- Cheating is defined as fraud, deceit, or dishonesty in an academic assignment, or using or attempting to use materials, or assisting others in using materials that are prohibited or inappropriate in the context of the academic assignment in question.

Anyone caught cheating or plagiarizing will receive a zero (0) on the exam or assignment, and the instructor may report the incident to the Campus Disciplinary Officer, who may place related documentation in a file. Repeated acts of cheating may result in an F in the course and/or disciplinary action. Acts of cheating include, but are not limited to, the following: (a) plagiarism; (b) copying or attempting to copy from others during an examination or on an assignment; (c) communicating test information with another person during an examination; (d) allowing others to do an assignment or portion of an assignment; (e) using a commercial term paper service.

## SOCIOLOGY PROJECT ON SOCIAL PROBLEMS

### Introduction

Understanding social problems in a variety of societies and communities is integral to this course. It is especially important to understand the origin and depth of social problems in our own communities as well. As part of your research project, you should show how various demographic communities are affected by a social problem and describe the problem as it presents itself in society. Focus on problems that exist in the United States.

### Prompt

Document a selected social problem and describe how various groups/demographic communities are affected by it. The documentation should be a photographic power-point or slideshow (PowerPoint, Google Slides, etc...) presentation illustrating aspects of your research of the social problem. Where does the problem originate? Who is affected? What are some possible solutions? How is your chosen social problem related to other social problems? **Select which theoretical perspective will help to explain the documented social problem.**

### Required Content

- Introduce and explain the chosen social problem
- Document and describe how social problem affects various **demographic populations**
- Document existence of social problem in **wider society** (at the state, national, or global level)
- The documentation should be a **15 slide** minimum (PowerPoint, Google Slides, etc...) presentation illustrating aspects of your chosen topic.
- Include **visual aids** that help to illustrate your information (pictures, videos, graphs, etc...)
- Select which **theoretical perspective** will help to explain the situation of your chosen topic.
- What are some **possible solutions** that have been put forth by government, organizations, nonprofits, or individuals to solve this social problem?
- Include Works Cited page at the end, and cite sources within presentation as you use them

### TOPIC EXAMPLES

1. Health (Obesity, chronic disease, allergies, asthma, etc...)
2. Environmental (water pollution, air pollution, loss of biodiversity, environmental racism, etc...)
3. Poverty (homelessness, lack of affordable housing, unemployment, etc...)
4. Alcohol/drug abuse (DUI, violence, divorce, etc...)
5. Teen pregnancy (costs, education, etc...)
6. Crime (violent crime, property crime, hate crimes, etc...)
7. Immigration (undocumented immigrants, population growth, family separation, etc...)

The assignment is worth 100 points

**Rubric:**

- Content, Knowledge, Validity of Information and Project Organization: 20 points
- Discussion of social problem as it applies to or affects particular demographic communities (age, race/ethnicity, sex, socioeconomic status, etc...) :20 points
- Discussion of social problem as it applies to wider society and resources available: 20 points
- Meet 15-slide requirement: 10 points
- Effectively apply sociological theory: 10 points
- Turned in on Time (submit to instructor before or on due date): 10 points
- Discussion of possible solutions: 10 points
