

IMPERIAL VALLEY COLLEGE

***Thank you for choosing IVC! We are so happy to join you in your educational journey.***

### Basic Course Information

Semester:	<b>Fall 2024</b>	Instructor Name:	<b>Dr. Omar Alshykhly</b>
Course Title & #:	<b>Chemistry 100 Introduction to Chemistry</b>	Email:	<b>Omar.alshykhly@imperial.edu</b>
CRN #:	<b>10030</b>	Webpage (optional):	
Classroom:	<b>2715</b>	Office #:	<b>2773</b>
Class Dates:	<b>8/12/2024 – 12/07/2024</b>	Office Hours:	<b>TBA</b>
Class Days:	<b>W</b>	Office Phone #:	<b>(760) 355-6298</b>
Class Times:	<b>11:20 am – 2:30 pm</b>	Emergency Contact:	<b>Department Secretary (760) 355-6155</b>
Units:	<b>4</b>	Class Format/Modality:	<b>Hybrid</b>

### Course Description

Elementary principles of general inorganic chemistry with an introduction to organic and biochemistry. Previous science background is recommended but not required. This course is designed for non-science majors and students who need only a one-semester general chemistry course, and also for students entering a paramedical and allied health fields, and industrial applications such as power plants. This course will satisfy the prerequisite for CHEM 200. (CSU)(UC credit limited. See a counselor.) Prerequisite: MATH 091 or MATH 090 with a grade of "C" or better.

### Course Prerequisite(s) and/or Corequisite(s)

Prerequisite: MATH 091 or MATH 090 with a grade of "C" or better.

### Student Learning Outcomes

Upon course completion, the successful student will have acquired new skills, knowledge, and/or attitudes as demonstrated by being able to:

1. Solve chemical problems using modern atomic theory (ILO2, ILO34)
2. Perform chemical experiments in a scientific manner using proper techniques, data analysis, and safety equipment. (ILO2, ILO3, ILO4)

### Course Objectives

Upon satisfactory completion of the course, students will be able to:

1. calculate English and metric unit conversions and measurements using dimensional analysis.
2. write symbols for elements and know common ionic charges.
3. derive and write formulas and names for chemical compounds.
4. write and balance common chemical equations and identify reaction types.
5. solve stoichiometric problems, including their solutions using dimensional analysis.

6. describe atomic structure including isotopes, periodicity and molecular structure in terms of subatomic particles.
7. identify types of energy and calculate specific heat; identify energy involved in change of state including heat of vaporization and predict behaviors in cooling curves; calculate caloric and nutritional values of various foods.
8. describe gas behavior and solve problems involving the various gas laws.
9. identify the type of intermolecular forces existing between molecules, and its effect on macroscopic property of the substance.
10. calculate solution concentration of various types including dilutions.
11. define the three basic concepts (Arrhenius, Bronsted-Lowry and Lewis) of acids and bases and perform titration experiments and calculate pH.
12. use Le Chatelier's Principle to predict the shift in the direction of the reactants/products
13. determine the oxidant/reductant and balance redox equations.
14. describe nuclear processes and write nuclear equations using the subatomic particles involved and identify health factors and risks involved.

### Textbooks & Other Resources or Links

1. **For online, hybrid and face to face classes**, you don't need to buy the book. We will use an OER book (available online for free), this is the book that we will use:

[Introductory to Chemistry \(Links to an external site.\)](#), ISBN 13: 9781453311073

You have several options to obtain this book:

(Preferred) [The book on Libretexts \(Links to an external site.\)](#)

- For the textbook: click on (in above link)
- [View online \(Links to an external site.\)](#) (Links to an external site.)
- [Download a PDF \(Links to an external site.\)](#) (Links to an external site.)
- [Order a print copy \(Links to an external site.\)](#)(Links to an external site.)

2. Lab Manuals and Safety goggles: you need to purchase the lab manual from chem or stem club (more details about purchasing the lab manual will be announced on the first day of class).

3. Non programmable calculator: a highly recommended calculator is the Texas Instruments TI36X Solar Scientific Calculator (not the "Pro") or the TI-30Xa.

### Course Requirements and Instructional Methods

Our lecture, and labs will be face to face (both will be on campus). For all classes, we will use ADAPT platform for doing the online assignments Homework. The midterm exams and final exam will be in-person.

- **Homework and quizzes:** Online Homework for each chapter will be using ADAPT software, and the due date will be find either on canvas or on the ADAPT. More information about this will be delivered on the first day of the class. The goal is to give you enough practice to enable you to be successful on the examinations. You will have 2 attempts per

question to answer it correctly. There will be no penalty for correctly answering on the first, or second attempt. After the due date, the homework assignment can be worked and submitted late for a 30% deduction. More instructions how to REGISTER AND USE the ADAPT online homework WILL BE DISCUSSED ON THE FIRST DAY.

\*There's online tutoring with a live person in **Net Tutor** (embedded inside Blackboard or Canvas).

- **Lecture Exams:** we will have 5 midterm exams face to face (in-person) on class. I will drop the lowest midterm exam. **No make-up exam.**
- **Laboratory:** you will do all experiments on the lab, and you will follow the lab's manual (you need to buy on the first week). **No make-up lab.**
- **Final Exam:** The Final Exam is comprehensive and in-person (You will be tested in all chapters 1 to 14). There are **no make-ups** because the date and time of the Final is the last day of class.
- **Extra credit:** Depending on the whole class performance, I will decide if you all need extra credit or not, and don't expect too many extra credit, just few extra credit will be added on the final grades.

Out of Class Assignments: The Department of Education policy states that one (1) credit hour is the amount of student work that reasonably approximates not less than one hour of class time and two (2) hours of out-of-class time per week over the span of a semester. WASC has adopted a similar requirement.

### Course Grading Based on Course Objectives

- **Study Hints:** Chemistry is a very demanding course. Depending on your background, you will need to spend 1-4 hours outside of lab to get your work done. Missing a lecture usually means your grade falls by  $\frac{1}{2}$  grade.
- **Do not fall behind so:**
  - **Go to office hours**
  - **Get a tutor**
  - **Form study groups**
- **No Gifts, cards, or food. All will be refused. Spend your time and effort studying.**
- **Don't try to cram! It doesn't work.**
- **Keep up!!**

Homework ADAPT	10%
Lab final exam	5%
Midterm exams	40%
Lab Report	20%
Canvas practice & Quizzes	10%
Lecture final exam	15%
Total	100%

Your final grade will be assigned based on following manner:  
Updated 6/2023

IMPERIAL VALLEY COLLEGE

90% - 100%	A
80% - 89%	B
70% - 79%	C
60% - 69%	D
Below 59%	F

### Academic Honesty (Artificial Intelligence -AI)

IVC values critical thinking and communication skills and considers academic integrity essential to learning. Using AI tools as a replacement for your own thinking, writing, or quantitative reasoning goes against both our mission and academic honesty policy and will be considered academic dishonesty, or plagiarism unless you have been instructed to do so by your instructor. In case of any uncertainty regarding the ethical use of AI tools, students are encouraged to reach out to their instructors for clarification.

### Course Policies

- A student who fails to attend the first meeting of a face to face or hybrid class or does not complete the first mandatory activity of an online class will be dropped by the instructor. Should readmission be desired, the student's status will be the same as that of any other student who desires to add a class. It is the student's responsibility to drop or officially withdraw from the class. See General Catalog for details.
- Regular attendance in all classes is expected of all students. A student whose continuous, unexcused absences exceed the number of hours the class is scheduled to meet per week may be dropped. For online courses, students who fail to complete required activities for two consecutive weeks may be considered to have excessive absences and may be dropped.

### What does it mean to "attend" an online class?

Attendance is critical to student success and for IVC to use federal aid funds. Acceptable indications of attendance are:

- Student submission of an academic assignment
- Student submission of an exam
- Student participation in an instructor-led Zoom conference
- Documented student interaction with class postings, such as an interactive tutorial or computer-assisted instruction via modules
- A posting by the student showing the student's participation in an assignment created by the instructor
- A posting by the student in a discussion forum showing the student's participation in an online discussion about academic matters
- An email from the student or other documentation showing that the student has initiated contact with a faculty member to ask a question about an academic subject studied in the course.

Logging onto Canvas alone is NOT adequate to demonstrate academic attendance by the student.

## Other Course Information

- **Add/Drop:** it is the responsibility of the student to take the necessary steps to add and/or drop the class by the college deadlines.
- **Late Submissions** Any late work (homework assignment, project, lab report, quizzes, exams) will not be accepted after the due date. If you have an urgent issue or an emergency talk with me in advance to extend the due date for you.

## IVC Student Resources

IVC wants you to be successful in all aspects of your education. For help, resources, services, and an explanation of policies, visit <http://www.imperial.edu/studentresources> or click the heart icon in Canvas.

## Anticipated Class Schedule/Calendar

Week	DATE	Lecture Online On canvas	Lab experiment 11:10 am Wednesday	Homework, and quizzes practice assignments
1	8/12	Syllabus, Ch. 1	Introduction to Lab, Lab Safety, Check in	Homework, and quizzes practice assignments on canvas. Check the due date on Canvas
2	8/19	Ch. 2	Lab Exp 1	
3	8/26	Ch. 3	Lab Exp 2	Homework, and quizzes practice assignments on canvas. Check the due date on Canvas
4	9/02	Holiday	<b>Problem set 1 practice</b>	
5	9/09	Ch. 3	<b>Exam 1</b>	Homework, and quizzes practice assignments on canvas. Check the due date on Canvas
6	9/16	Ch. 8	Nomenclature Lab & <b>Problem set 2 practice</b>	
7	9/23	Ch. 9	Exam 2	
8	9/30	Ch. 4	Lab exp. 5 & <b>Problem set 3 practice</b>	
9	10/7	Ch. 4 & 5	<b>Exam 3</b>	Homework, and quizzes practice assignments on

				canvas. Check the due date on Canvas
<b>10</b>	10/14	Ch. 5 & 7	<b>Lab Exp. 4</b>	
<b>11</b>	10/21	Ch. 11	Lab Exp. 3 & <b>Problem set 4 practice</b>	
<b>12</b>	10/28	Ch. 12	Exam 4	
<b>13</b>	11/04	Ch. 6	Lab Exp. 8	Homework, and quizzes practice assignments on canvas. Check the due date on Canvas
<b>14</b>	11/11	Holiday	Lab exp. 6 & <b>Problem set 5 practice</b>	
<b>15</b>	11/18	Ch. 10	<b>Exam 5</b>	
<b>16</b>	11/25	Thanksgiving break	<b>No classes</b>	
17	12/2	Final exam	Final exam	Homework, and quizzes practice assignments on canvas. Check the due date on Canvas

**\*\*\*Subject to change without prior notice\*\*\***

#### FALL SEMESTER 2024

#### IMPORTANT DATES AND DEADLINES

NOTE: The deadlines below are for full-term classes. Deadlines for short-term and non-credit classes vary by the class.

July 1 Priority registration begins Students may register up to 19 units at their assigned time.

July 15 Open Registration

July 16 Registration begins for students concurrently enrolled in grades K-12

August 11 Residency determination date.

August 12 Semester begins. Beginning on the first day each class meets, add authorization codes from the instructor are required to register for that class, filled or open.

August 12 – Late Registration. Beginning on first day each class meets, add authorization

August 24 code from instructor required to register for that class, filled or open.

August 25 Last day to drop and receive a refund for full-term classes and not receive a “W”.

August 26 Census

August 26 Ticketing for parking violations in student spaces on main campus begins.

Note: Tickets are issued for reserved (Faculty/Staff), disabled, time limit parking and no-parking spaces year around.

**September 2 Holiday – Labor day. No classes.**

September 6 Financial Aid Freeze Date – Units enrolled as of this date will be used to determine

Updated 6/2023

enrollment status for financial aid payment.

October 17 Return to Title IV Drop Date – Complete withdrawal before this date will require financial aid eligibility recalculation and funds may be owed.

**\*\* November 2\*\*** Deadline to drop full-term classes.

November 11 Holiday – Veterans Day. No classes.

November 25 – 26 No classes (Campus Open)

November 27 – 29 Holiday – Thanksgiving. No classes.

December 6 Deadline to submit Petition for Graduation for degree to be awarded for Fall 2023. Completed petition must be received in Admissions & Records Office by this date. Students must meet with a Counselor to petition by this date.

December 2 – 6 Final Exams.

December 9 – 13 No classes (Campus open)

December 16 – January 1 Winter Recess (Campus closed)
